5. Activities and Major Accomplishments

6. Statistical Information (if applicable)

Regional Specialty Entries seem to be on the decline. Sweepstake entries are down. Most of our top Breeders are getting older and not breeding as much, which effects Sweepstake entries. Hope some of the younger members step up. Hope St. Louis has a good entry.

7. Additional Information/Comments/Special Highlights (please attach)

Visited with the California Co-Chairs, Lisa Voss and Sharon Prasa at their Regional Specialty. They seem to have everything under control. They made the decision to move the Herding Even to a new site. The site is farther away than the original site, but their new site has better sheep and a better facility. Most of the local members that do Herding are very positive about the change.
