## BEARDED COLLIE FOUNDATION FOR HEALTH (BEACON)

Elsa Sell

The yearly open health registry report is completed and available here. The most common categories of health problems remain unchanged – autoimmune, behavioral, endocrine, cancer, and allergy in descending order of frequency. Causes of mortality vary with age so check out the report to learn more.

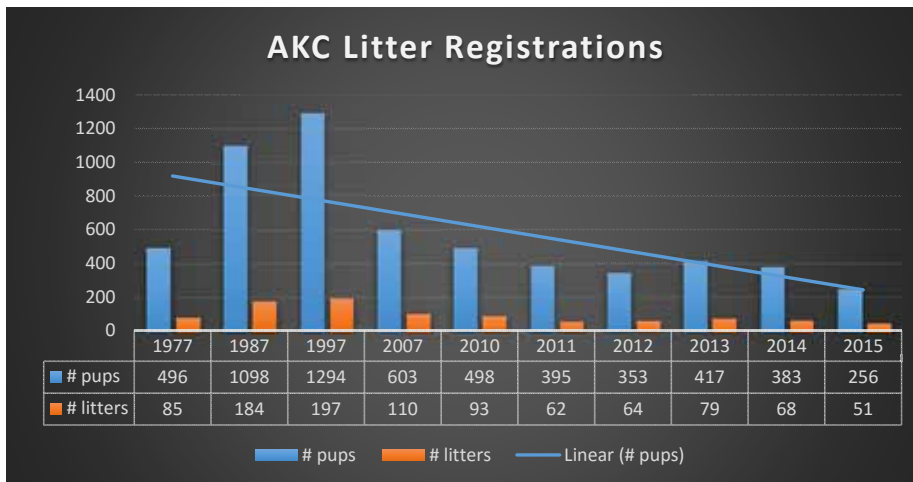

One finding that begs attention is a continuing decline in AKC registrations of litters and pups in litters (as well as dogs). A similar decline has occurred in the UK.

The decline is downright alarming. In the UK, the Kennel Club has placed the Bearded Collie of their watch list of breeds. That is a step before a breed goes on the vulnerable native breed list. Is the Bearded Collie headed in that direction in the USA? Is it time for the BCCA to address the issue? Does the AKC consider such issues?

Participation in BeaCon’s open health registry for the USA is relatively dismal compared with other places. Only 34% of the 2722 dogs in the registry are from the USA. Why is this? Do people in other countries value health information more than we do here? Do we need to know about health issues? To get an understanding of different views, we developed a short 15 question survey; it takes 5-6 minutes. It is available for 2 months and you are invited to give input.

### [GO TO SURVEY](#)

SLO DNA Research. This project will be completed in the summer. Thanks to those who have submitted DNA samples for healthy control dogs over 7 years of age and affected dogs. We urge you to submit samples if you haven’t done so. See the website ([www.beaconforhealth.org](http://www.beaconforhealth.org)) for more information. herding news

## HERDING NEWS

Elsa Sell

New HIC’s in January

- Sebring But I Like It, owned by Kimberly Nicholson
- Aellen Warrior Princess, owned by Pat Gerpheide
- Sebring’s Love Child, owned by Tillie Burke

Trialing and training have gotten started in most parts of the country with the coming of spring; may the season be fruitful for everyone. There has been some discussion on one of the yahoo Beardie herding lists (herdingbeardies) with such topics as approaches to shedding (used in B course AKC); how to position oneself to prevent a dog from overshooting a flank while coming to balance; how to help square up flanks and preventing slicing in; herding clinics and clinicians; handler position in different scenarios (like an outrun, lift, fetch – where do you move to, or do you move?); do you step in toward the dog to push it out

when coming in incorrectly towards the stock?; letting the dog work vs. handler demanding total control; a little task to engage in while sitting outside an arena to teach a calm walk up, stop, and leave the stock. These have been interesting discussions. Happy herding everyone and patience with training.

As a follow-up on last months’ stats report that only three HIC events were held last year, I am hopeful that some of our affiliate clubs are planning to sponsor instinct testing this year and give more Beardies and their owners an opportunity to see stock for the first time. All the forms and instructions are on the herding section of the BCCA website - <http://beardedcollieclub.us/activities/herding/bcca-programs/hic-forms/> or contact me for help [beaconbb@bellsouth.net](mailto:beaconbb@bellsouth.net)

# SPEED OF LIGHTNING!

by Lori Weinberg • laweinberg@gmail.com

As agility competitors we are very fortunate that our breed club, the BCCA, recognizes and rewards our performance dogs. I am very excited that the BCCA now has an award that celebrates speed!

The committee that developed the award criteria did a great job making this a very obtainable award to the majority of Master level dogs. Even dogs that don't compete "all the time" can be eligible for the award. The statistics collected for this award show that our breed does have speed and the potential for more speed. I am impressed to see the total scores that show we have fast Beardies across the country!

For the Lightning Award, yards per second are used for scoring. The five fastest legs for each dog in Masters Standard and JWW (regular or preferred) are selected. The high and low values of these five legs are dropped and the remaining three values are averaged. The averages for Standard and JWW are added to get the dog's total score. The dog with the highest total score is the winner.

In 2015, there were 47 amazing teams that were eligible for the award. As a competitor, I want to know how my dog compares to other Beardies. I recognize some of the names on the list, but have not seen many of your dogs in person. The complete list of the eligible Beardies and their total scores for 2015 is at the end of this article.

I want to encourage each agility competitor to push for speed and push to qualify for the award. I want to see that total score go even higher in 2016! I know there are lightning fast Beardies out there that can make that happen.

A daily mantra for me is, "If it doesn't challenge you it doesn't change you," by Fred DeVito

I know I will be pushing with Blade and Bolt to see if they can improve on their scores. I hope you will join me in the challenge.

Special thanks to the members of the committee that worked to develop this award; Ann Chandoha, Sue Jamison, Libby Myers-Buhite, Cheri Omnus, Jill Scarborough, Shannon Smart, BJ Walker, Lori Weinberg, Joanne Williamson and John Youngblood.

## **VOTE ON CHAPTER 9, SECTION 12 OF BEAGLE FIELD TRIAL RULES**

Adopted

### **PARENT CLUB COMMITTEE**

1. BRED WITH H.E.A.R.T. PROGRAM: 17% of puppies come from Breeders of Merit. 13% from commercial breeders (USDA registered or who produce more than 7 litters per year). Bred with H.E.A.R.T. program reaches the low volume hobby breeder. Participants must sign an oath certifying adherence to health requirements of his/her breed club, taking an education course, being inspected and producing health certificates, Ethical expectations are the same as for a Breeder of Merit.
2. Approximately 1000 breeders have signed up, and 600 have taken the online course. Most passed inspection or passed after receiving additional time to get their records in order and the like.
3. PET DISASTER TRAILERS: 319 clubs have participated in raising funds for Pet Disaster Trailers. A total of \$1,186,743 has been raised and there is a balance of \$68,000 left to spend.
4. Forty-three trailers have been delivered to 23 states. Eight more are almost ready to be delivered. Fifty-one more efforts are underway.
5. PARENT CLUB OF EXCELLENCE: So far 51 clubs have responded. This is a self evaluation form which self grades with a top score of 130.
6. RE-ALIGNMENT OF GROUPS RE-VISITED: The plan which was submitted in 2010 or 2012 was defeated. With the number of new breeds accepted, is it time to re-evaluate this? There have been 27-30 new breeds admitted since the last vote.
