JULY 1	JULY 31
OCTOBER 1	OCTOBER 31
JANUARY 1	JANUARY 31

THERE WILL BE NO EXCEPTIONS TO THIS SCHEDULE.

From the Editor

The National Specialty is, of course, always truly a "Special" occasion, the highlight of the year's Beardie calendar. This year was no exception, and in fact had even more than the average amount of uniqueness... Littermates (from the 9-12 month puppy classes): Ha'Penny Moonshadow (owned by Robert Greitzer and Richard Schneider) and Ha'Penny Sweetwater Agility (owned by the Tom Garretts) went Winners Dog and Winners Bitch, respectively. Their sire, Eng. Am. Ch. Chauntelle Limelight (owned by Tom Davies, Judith Goldworm, and Ha'Penny Kennels) was Best of Opposite Sex. He and his "kids"--not surprisingly-- went on to take the Stud Dog Class. The pups' Grand-dam, Am. Can. Ch. Brambledale Blue Bonnet, CD, was Best of Breed over 43 other champions. By anyone's standards these wins have to be an enviable accomplishment! Congratulations to these and all the many other winners at the Specialty (space in this column prohibits my mentioning everyone, but the entire results are included in this Bulletin, so read on), and an extra tip of the hat to Bonnet, who, at 9+ years, continues to possess a rare brand of Beardie magic.

Congratulations are also due to the hard-working Chicagoland Club who, I understand, has managed to put on a Specialty that actually made the BCCA some money, without compromising the quality of the weekend; and to the Prairie Path and Greater New York clubs, who provided such invaluable assistance throughout the whole affair. For those of you not fortunate enough to attend this year, you missed a lot of fun. Next year, it's California or Bust!

You're Invited!

It's the Bearded Collie Club of Greater New York's (BCCGNY) Fourth Annual PRE-WESTMINSTER AND WELCOME TO THE BIG APPLE PARTY . . . held on Monday, February 8, 1982 at 6:30 p.m. The address is 43 East 19th Street, New York City (between Park Ave. and Broadway). There will be a cash bar, and dinner (courtesy of the infamous GCCGNY Chefs, Ltd.). RSVP.

Our Cover . . .

On the cover, once again, is American and Canadian Ch. Brambledale Blue Bonnet, CD, who was bred by Lynne Evans and was whelped April 15, 1972.

Robert and I feel the thing that we would most like to say about Bonnet at this time, is thank you one and all for the warm and overwhelming reception you gave Bonnet at the BCCA 1981 National Specialty...your compliments and cheers will remain with us always.

Comments on the "White Study"

by Dr. Asa Mays, Jr., D.V.M.

Dr. Mays is Director of Laboratory Animal Medicine at Indiana University, Bloomington, IN, as well as being an AKC judge and a long-time breeder and exhibitor of Borzois, Salukis, Beagles, and Dachshunds. Following are his comments on the "White Study."

As you know, the breeds of dogs with which I am intimately involved are not particularly concerned with color. Therefore, I have not involved myself with the genetics of coat color inheritance, and although I have had some formal courses in genetics, I certainly am not a geneticist. However, certain comments regarding the report, based on the scientific treatment of data would be in order:

1. The report would be immensely more useful if the reader were provided the pedigrees (or to protect confidentiality, a coded or schematic pedigree) to assess the degree of inbreeding in the reported sample.

2. The total number of animals should be clearly stated.

3. A study based on only 20 samples may produce extremely skewed data.

In any study, one must make sure that the sample truly is representative of the total population. In the present study that may not be a valid assumption. Further, relying on a reference source that is 24 years old may be a bit risky--a especially in a field so dynamic as genetics. I'm not totally convinced that it's quite as simple as stated in the report; viz., I think there might be significant differences in whites--i.e., is the "white" area due to a lack of pigment, or is it a white color that has "spread" over a pigmented area...? If there is a distinction in white, that would be very important, since I would expect a higher incidence of abnormalities in the cases where pigment was absent. It might also be important to note not only the pattern of color, but also if there is any variation in the rate at which color in a particular area appears or disappears

(this color appearance or disappearance reflects my ignorance of the "normal" development of the Beardie).

Now a strictly non-scientific opinion: I place a lot of faith in the early standards and firmly believe that each and every criterion mentioned in the standards (at least in working dogs--not to be confused with Working Dogs) was put there for a reason. Maybe it had nothing to do with health or genetics, but don't forget function and utility.

An Answer to Mary Reese

from Ann and Harry Witte (Gaelyn and Artisan Kennels)

You say that in your opinion "there is no such thing as a 'mismark' or a 'wrong color' in any breed." You say that you "would like to see each person make his own decisions about what looks to him." You say you "choose not to interpret Standards...as the absolute law." That "Standards are written by people...who can make mistakes." That..."Standards contain things that I feel aren't right." That "I do not assume that any breed standard is the Word of God."

You have proposed GENETIC ANARCHY. You have proposed a situation wherein overbites, cow-hocks, hackney fronts, curled tails, and any other characteristic which can occur in Beardies should be acceptable. Without a breed Standard, a word picture of the ideal Beardie, how do you propose to assure any continuity of type to call your dogs a "breed"? Without a breed Standard, how do you hope to know which pups to show and breed? Without a breed Standard, how soon will the Beardie and the Bulldog be the same animal?

The breed Standard IS the "Word of God." Human beings CREATED the various breeds by SELECTION FOR SPECIFIC CHARACTERISTICS TO to fill the needs of Man. PEOPLE PLAYED GOD AND CREATED DOG BREEDS. People wrote Standards to assure consistency within the breeds. Each characteristic has a purpose in the usefulness of each breed. The white Beardie would NOT be useful herding white sheep in the fog and mist of their home country, thus were NOT ALLOWED. The HUMAN shepherd must know where his dog is at all times and cannot see a white dog.

Who suggested euthanizing whites? As with any pup which fails to meet the Standard, these pups can be sold as healthy pets TO BE SPAYED OR NEUTERED. White, as any other undesirable characteristic, can be selected against by the ethical breeder whose primary concern is the welfare of the breed, not the welfare of his wallet.

And PLEASE, unless you can reassess your insistence on Genetic Anarchy and see why the Standard is ESSENTIAL to the breed, enjoy your Beardies, in whatever color, shape, and size you wish, AS SPAYED PETS. For the sake of the breed you profess to love, NEVER BREED A BEARDIE.

Put a Little Obedience in Your Beardie's Life

by Joan Blumire

There have always been dire warnings to conformation exhibitors who feel their dog has obedience potential that to indulge in this aspect of dog sport can only lead to irreperable damage for conformation. Among the most persistent arguments put forward are the tendency to sit in the conformation ring, the dog's confusion as to whether he is in obedience or conformation, faulty movement caused through heelwork, and the quelling of his animation. These opinions cannot be dismissed as mere nonsense for there are some truths to these problems--but that is what they are, mere problems for which solutions may be found, not insurmountable obstacles.

During the past few years obedience training has undergone a transition from the old style of attempting to achieve mastery of the dog to a more enlightened form of teaching through looking at things from the dog's point of view. These new techniques, using encouragement and praise rather than the application of harsh corrections when the dog is in error, have led to the production of

intelligent, thinking, and animated workers, whose joy of working and pleasing the owner will carry over to the conformation ring, providing heady competition for their non-working counterparts and belying the old wives' tale that obedience training will ruin animation for show dogs.

During the teaching of heelwork, a maximum of three "sits" and should be interspersed by a "stand" with the placing of the back of the left hand against the dog's flank whilst the right hand simultaneously swings in front of the dog's muzzle. The time taken up with this training will be amply recompensed at the Utility level when this exercise becomes a necessity prior to hand signals. Meanwhile, the dog will soon learn he will be expected to sit only when the handler stops on the right foot and draws up the left foot to end in an attention position.

Obedience sessions should be balanced with conformation, with the changing of leash and collar, the holding of the leash with the left hand, and a new location--all designed to differentiate between the various procedures. With the new, preferably soft collar, the Beardie must now be allowed to pull ahead without fear of sudden jerks at turns, and the handler should adjust from the short, quick steps of obedience, to the long, reaching strides of conformation to encourage the Beardie to do likewise. Perhaps the left hand held down at the side with a loose leash may discourage him from staying as close as is essential for the obedience ring, and the right hand and arm should be motionless so as to not attract his attention and cause him to sidewind towars you in anticipation of an obedience signal.

Having a Beardie in conformation and obedience is no easy task, but what worthwhile accomplishment in life is! Perhaps you will one day have the pleasure of watching your competitors while away the empty hours midst Breed and Group judging in complete boredom, whilst your Beardie will be busy earning a new obedience title between winning a Best of Breed and Best in Show--an exciting aspiration!

The Impossible Dream

by Janice Masters

---

* The Impossible Dream first appeared in the Bearded Collie Magazine, Issue 9.

It was love at first sight! With just one glance at Prince's photograph, I knew he had captured my heart with his special elegance and regal dignity. It was pure fantasy on my part when I began to think about importing a daughter by Prince, but the more I returned to this lovely Beardie's photograph I simply said, "Why not!"

I wrote to Bette and Keith Higgins inquiring about a Prince daughter and eagerly awaited their response. In Bette's first letter she told of how Keith found Prince and Annie. The letter read, "Keith visited England several years ago in order to find a pair of Bearded Collies. (We originally came from England and brought a large number of dogs with us for the show ring.) He covered over seven thousand miles in England looking for the dog and bitch of his choice. He eventually found Prince (Ch. Calderlin Leal) and Annie (Ch. Penreen's Annie Laurie). They were both working on a farm, working sixty head of dairy cattle morning and night. He fell in love with the pair of them instantly, and knew he had found what he was looking for. Our very good

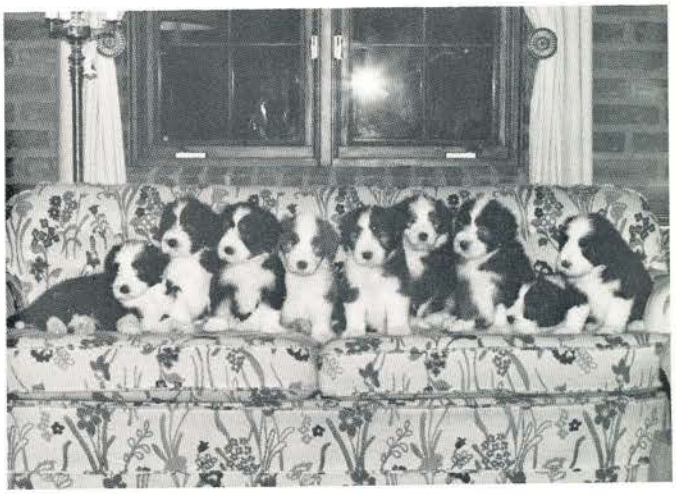
friends, they were not friends then, but we have built a very good friendship up during the years of correspondence and seeing them every two years whilst on our trips to England, could not part with him. We brought Annie Laurie back with us to Australia and she settled in beautifully. She went straight into the show ring here and did extremely well under overseas and local judges...taking Best In Show awards and numerous working dog groups. Not long after Annie came out to Australia we had a letter from the people who owned Prince telling us they had decided that Prince should 'further his show career' and he was on his way out to us. Of course we were delighted. When he arrived he settled in just the same way that Annie had and he too went straight into the show ring."

As we continued to write back and forth, Bette became familiar with what we were looking for and wrote, "Her name is Bloody Mary, she is nine months old, a brown in colour and is absolutely full of bounce and mischief. She certainly loves life. We named her litter after drinks. I don't think that a bitch ever deserved more a name like Mary has got, she really lives up to it. She has done extremely well in the show ring, taking numerous classes in shows out. She really loves the ring." That was it! I just knew Mary was going to be that dream come true! Since Australia was such a far, far away place, we knew it would be expensive to import her so we requested that Mary be made up with her Australian Championship title before coming to us. When the Higgins' letter arrived favorably responding that this would indeed be possible De and I were thrilled, ecstatic and euphoric! About this time Keith and Bette forwarded on to us a voiced tape recording announcing that they would be visiting England the same time as we had scheduled our trip. The tape ended with Roger Whittaker singing, "The Impossible Dream!" One of their purposes for their holiday besides reuniting with their families was business connected. I remembered that they owned Petcetera, a mobile pet supply business, that traveled within a five hundred mile radius to all dog shows as well as purchase and export back to Australia new merchandise for the Petcetera.

Meeting them and spending two memorable weeks on and off together was one of our most cherished experiences to this point in time. Bette and Keith with three young sons, eleven year old Belden; nine year old Kadam, and eight year old Kishen to rear and educate were a few years our junior. Nevertheless we hit it off right away discovering that we shared many of the same philosophies and enjoyed doing numerous activities together. Subsequently we made plans to return in the summer of 1981 to meet again.

It was with deep, heartfeld sadness that I learned that Bette during this past spring became seriously ill. She lost considerable weight and underwent surgery. Recently she wrote explaining that whilst she she was home and felt much better it would be several weeks, if not months, before she would be her old self again.

AUST/AM/CAN CH.
BEARDIE BLOODY MARY



LUCKY-MARY LITTER

To the best of our knowledge, the first Australian champion Bearded Collie imported by Americans was Beardie Bloody Mary. On October third of last year, Mary departed from Camberra and flew to Sydney and on to Hawaii where she was quarantined. The reason for the quarantine was for a veterinarian to certify that she was free of tapeworm parasites. From Hawaii she flew into Los Angeles and finally after ten days arrived at Metropolitan Airport in Detroit. The travel expenses inclusive of crate, air freight, quarantine and kennel charges, and duty amounted to slightly less that six hundred dollars. Like both of her parents, she too settled into a new environment without problems. Life at Jande seemed to agree with her. We never knew we had a new member added to an already growing family of Beardies. If I were asked to describe Mary I would say that she is pretty; sound; very, very sweet natured with a steady temperament; intelligent, lovable and forever smiling.

Mary was amongst an entry of ninety Beardies at the February 1980 Cincinnati Fun Match judged by English breeder/judge Joyce Collis. In The Bearded News, the British Bearded Collie Club's publication, of May 1980, "Beardie Judging At Crufts and America" by Mrs. Collis appeared. She wrote of Mary: "My Best of Breed adult was surprisingly enough the very beautiful brown bitch owned by Janice and DeArle Masters, Australian Ch. Beardie Bloody Mary (Ch. Calderlin Leal ex Ch. Penreen's Annie Laurie) bred by Keith Higgins. She did in fact remind me very much of my Bitch C.C. winner at Crufts (Ch. Willowmead Perfect Lady), the same unspoilt natural presentation, not a parting in sight, a beautiful quality bitch moving so soundly on a loose lead..."

In March our Aussie girl whelped a gorgeous litter sired by Ch. Edenborough Happy Go Lucky. It was decided to run on the males and retain a lovely slate bitch puppy. Learning from observation their changes in development was felt to be an invaluable educational experience as well as an insurance in keeping the right boy!

Junior Editors' Quiz on THE BEARDED COLLIE

QUESTION: *What can you tell me about the bearded collie?*

* * *

ANSWER: The bearded collie is a breed of working dog that originated about 500 years ago in Scotland and was used as a shepherd. It is among the oldest of English sheepdogs and among the most recent breeds to be recognized by the American Kennel Club.

Adult bearded collies stand about 22 inches high and weigh about 60 pounds. Males are usually slightly larger than females. Puppies are born black, but may grow to be any of several colors, including black and various shades of brown, gray and red. The bearded collie has two coats of hair. The inner coat is soft and furry, and the outer coat is strong and wiry. This double coat helps insulate the dog against extreme heat and cold, and repels water to help keep the animal dry.

Although bred to be a working dog, the bearded collie is becoming increasingly popular as a pet. It is a friendly dog which is usually gentle with children. The bearded collie is active and prefers to be on the go, and for this reason, it should be exercised regularly. Its coat requires regular brushing, especially in the first two years. And, although the bearded collie is a loyal pet, it does not often succeed as a guard dog.

— Ron Berthel 6/19

(James Thir, Jr., of Seward, Pa. wins a prize for this question. You can win $10 cash plus WEBSTER'S NEW WORLD DICTIONARY FOR YOUNG READERS (©1979 by Simon & Schuster, a division of Gulf & Western Corp.) if your question, mailed on a postcard to Junior Editors, c/o this newspaper, is selected for a prize.)

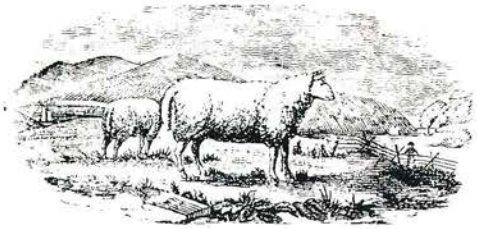
The BCCA maintains a number of items for re-sale to club-members as an added convenience. For the many new members (and for a number of old members who may have forgotten), following is a brief description of some of the more popular of those items.



Available from B.C.C.A.

Willison Book:
$3.00

First book ever written about the Bearded Collie. The author was Mrs. G.O.Willison, who took an interest in the breed in England and founded the famous Bothkennar Kennels. Through her hard work, the breed was accepted by the English Kennel Club. A must for the Beardie owner's library.

Note Paper:
$2.50

Head sketch of a Bearded Collie. 15 folded notes with envelopes.

BCCA Pins:
$4.00

A shade larger than a quarter, these pins are enameled with a blue background, black and white Beardie encircled with a narrow black band printed in gold "The Bearded Collie Club of America. Est. 1969." Around the outer edge is gold. Very attractive.

English Stud Book:
$5.00

This book was available for the first time at the 1980 National Specialty. It was put together by club President, Gail Miller, from her records. She also put the colors of many of the dogs listed. A great help for anyone interested in tracing the pedigree of his/her dog, and also for knowing what color background is in a pedigree.

Decals:
$ .25

We have both the gummed front and gummed back. They are approximately 4 inches across. A Bearded Collie is centered on a white background. 1969 appears below the Beardie and around the outer edge is printed "Bearded Collie Club of America."

BCCA 10-Year History:
$3.00

Offered for the first time at the National Specialty 1980. Includes history from 1969 to 1979 and updated to June 1980.

Match Catalogs:
$1.00

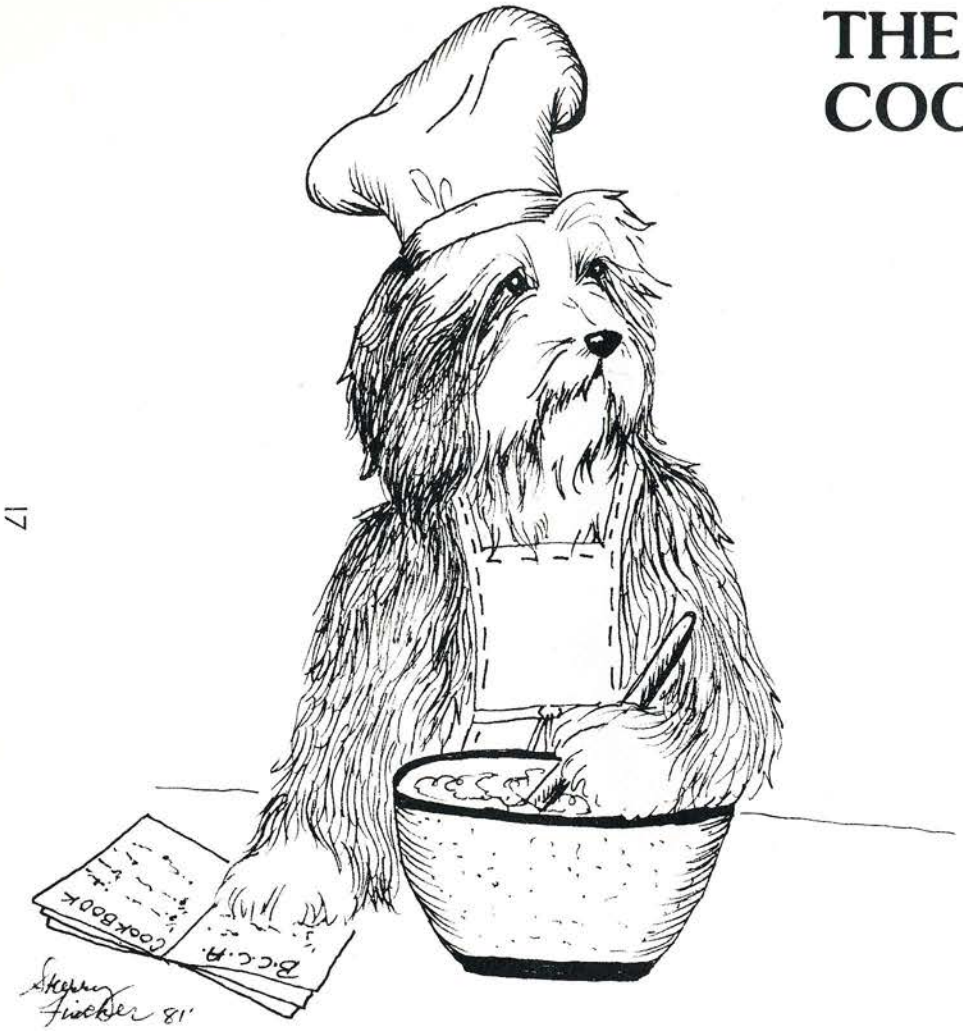
These include 1969, the first Match held; 1975 and 1978; plus our First Annual National Specialty. When possible, these are marked catalogs.

Bulletins:
$1.50 & $3.00

We have a wide selection of back issues of the Bulletin. Many Many have excellent articles that would come in handy for anyone's library.

English Calendars (1980):
$2.50

Granted these are outdated, but could still be put to use with very little change. Also, each month features a Beardie do ng what they do naturally--playing and acting so innocent.



PROCLAIMING . . . .
THE JAMES BEARDIE COOKBOOK

The Publications Committee has begun its work of following up on our Fund Raising Chairman, Robert Lachman's idea for a BCCA cookbook.

Both canine and people recipes will be accepted.

Beardie photos will be scattered throughout the *Cookbook* so help us out by sending in your favorite impromptu photo (photos used will not be identified).

All photos will be returned, provided a stamped, self-addressed envelope of appropriate size is included.

Photos may be color or black and white up to 8″ x 10″. Please include your name and address on your photos and on your recipes.

The *Cookbook* will be approximately 70 pages so we offer space in this publication on a first-come, first-served basis. Proper credit *will* be given to submitted recipes used.

Deadline for recipes and photos will be on or before January 2, 1982.

Send all photos and recipes to:
Judie W. Gallagher
P.O. Box 5091
Newport News, VA 23605-0091

The James Beardie Cookbook will be available for sale at the 1982 BCCA Specialty.

NOTE: If it becomes necessary to set limits on recipes received, only one from each household will be used to allow as much membership-wide participation as possible.

Am. Can.* Ch. Silverleaf's Virginia Reel

(Am/Can Ch. Shiel's Mogador Silverleaf, R.O.M. x Parcana Possibility, R.O.M.)

"Muffin" finished* in Canada with back-to-back best of breed wins, over Specials, and a Group IV placing during the KARS circuit, she expresses a special thanks to judges Mrs. Kitty Drury and Mrs. Augustus Riggs.

"Muff" has been bred to a Kent son and is expecting her litter about October 21, 1981.

* Pending AKC Confirmation

CHAMPION HA'PENNY FROST FLOWER

Frosty was picked up from the breeders (Dick and Bobby Schneider) and lost, all within an hour, when we stopped in Rye, New York to walk her and she backed out of a show lead.

After the normal avenues of approach such as radio ads, newspaper ads, spots on the local TV station, calls to the National Dog Registry, dog wardens, dog pounds, county animal shelters, and the police in two states failed, Bobby Schneider had one thousand flyers printed with a rendering of Frosty and an appeal for help. These flyers with our telephone numbers were stuffed by volunteers into mailboxes in both Connecticut and New York. This was further augmented by others who during the day made house to house calls appealing for help--and the help literally poured in. We received dozens of calls each day from people who had spotted Frosty, but each time we tried to intercept her she either had left the area or if she spotted us she bolted at the sight of the people who had taken her from her Beardie playmates Blossom, Beardie, and Sasha.

In a last attempt we set up a map of the area where Frosty was most often being spotted and each time we received a call we would mark the location and time of the spotting. After a few days we noted that Frosty was following the same five and one-half mile trail through Greenwich, Connecticut every day. Armed with this information and communicating with two-way radios, we were able to intercept Frosty with her Beardie playmates who she enthusiastically ran to, permitting us to finally catch her.

It has been over two years since Frosty came back to us and she has been a constant and loving obedience-trained companion ever since. We wish to take this opportunity to thank everyone, especially Bobby Schneider, who donated their time and caring when we needed it most.

Meet AGGIE . . . . . .

Ch. Lochengars Piglet

(Ch Rich-Lins Mister Magoo x Ch Excellent Outfit Queen)

Aggie is shown completing her championship under judge Edward Bracy while going Best of Winners for a three-point major at the same time. She was exclusively owner-handled to her championship under judges J. Council Parker, Herman Cox, Robert Ward, Mrs. Robert Ward, Dale McMakin, Thelma Von Thaydon as well as Edward Bracy.

Aggie is a feminine bitch and yet possesses the soundness in conformation and movement that is so important. Add to all of this a charming personality and you've got a simply lovely Beardie. Aggie will be bred this winter and inquiries are invited.

Cooper—A Love Story

Chapter 6

On July 16, Cooper watched the miracle of birth as Tommi was delivered of 6 fine, healthy babies. Within a month, he had been asked to give up his room for his growing brothers and sisters.

"Having grown up alone, I am fascinated by (and envious of) the joyful play among the puppies as they grow. The best time was when I met my own children at Lang's. My sons, Brady and Barry, are superb young fellows, and my daughters are simply charming. I am often asked to babysit my little siblings. I must admit that being a 'big brother' can be great fun, but they seem to think I am a sheep to be herded! 'Trouble,' 'Merlin,' and 'Bear' are delightful youngsters--BUT.....

WON'T SOMEONE TAKE THEM OFF MY PAWS?"

Cooper went to few shows this summer, but he did add another Group 3 to his collection in Canada, and he attended the National Specialty.

"In Chicago, I became somewhat spoiled, -- sleeping on a bed, watching TV, studying the paintings, meeting so many handsome fellow Beardies. I could hardly contain my excitement at being chosen for the final competition, even though I had taken only my summer suit to wear. My teachers have reminded me of my youth, and say that one day I may go to another National when I grow up.

"I have been lonely since Betsy left, and admit to having succumbled to the charms of 'Muffin,' Ch. Brisles Kirriemuir of the Jenkins' in Kansas City. She tells me she will have babies in mid-November. PLEASE--don't tell Betsy!!!

Willowmead Midnight Blue (O.F.A. BC246)

(Eng. Ch. Banacek Moonlight Blue ex Eng. Ch. Willowmead Perfect Lady)

Duncan is living proof that one can, indeed, "teach an old dog new tricks"--well, he's not an old dog, but this June Duncan arrived at Glen Eire, age almost five, with no show experience at all.

In the few short months he's been with us, he's been whirled off to obedience classes, then to conformation classes, x-rayed clear, jogged for two miles each day, shampooed and generally whipped into shape. All this he's taken with great patience and humour...

He'll be "ring ready" soon -- watch for Duncan.

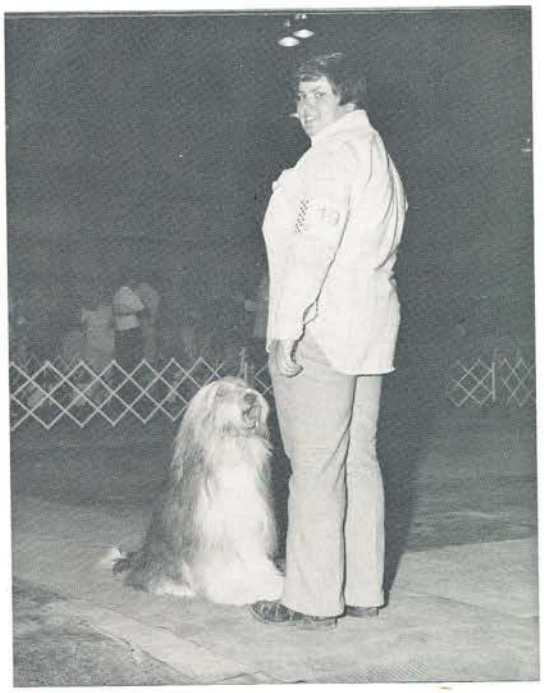
MALACHI

"They are messengers . . . "

Ch. Pepperland Rolling Stone Am. Can*. C.D. (O.F.A. BC139T)

Banjo is pictured in Canada where with his versatility he easily gained breed points and a CD Labor Day. He has also been High Scoring at the '78 National Specialty, Best in Match '80 (judge Gail Miller), and High Scoring and Movement winner '81 (judge Joan Blumire). He is the sire of major-pointed offspring. Look for his third litter in the ring this fall. Banjo possesses a "sensible exuberance" making him a dependable competitor noted for his happy manner. Due to my physical and financial limitations he will be specialed only occasionally. Watch for him.

A very dark brown (has never been lighter), he is at stud to approved x-rayed bitches, fee $300, 2 live pups ($100 shipping discount over 500 miles).



"You called?"

Gai-Legend Parcana The Rose

(Ch. Parcana Silverleaf Vandyke x Ch. Osmart Smokey Blue Parcana)

"Rose" was the Northwest Bearded Collie Club match's Sweepstakes winner under judge Bonnie Davis, Best Puppy in Match, and Best in Match under judge Ann Webster (over champions) in August 1981. She was WB (for 3 points) and BW at Wenatchee Kennel Club on 9/13/81 under judge Winifred Wartnow. Thank you Jo Parker for sending us this beautiful, sound puppy!

"FLOWER POWER"

SPECIAL ANNOUNCEMENT--

JANDE

BORN TO WIN !

From the "Lucky-Mary" (Ch. Edenborough Happy Go Lucky ex Aust/Am/Can Ch. Beardie Bloody Mary) litter whelped March 28, 1980...these truly Born-to-Win Beardies are (left to right): Am/Can Ch. Jande's Just Dudley; Jande's Lucky Tri (pointed); Am/Can Ch. Jande's Oxford Knight in Blue; Jande's Lucky Mary (pointed).

Am. Can. Ch. Jande's Just Dudley—

1981 BCCA National Specialty Best in Futurity Winner

"Cuddley Dudley" was mated to Brambledale Belltara (Daughter of Eng. Ch. Brambledale Balthazar), who whelped a litter of eight on 8-18-81. He passed body, i.e. bone, straight fronts, strong rears, as well as his outstanding temperament with lovely expression on to his offspring. He has been mated to Am/Can Ch. Jande's Winsome Winnie who is in whelp and due 10-25-81. Discerning breeders may wish to consider this "Born-to-Win" Beardie in their breeding program. Inquiries welcome... pedigree upon request.

#1 LIMELIGHT #1

Eng. Am. Ch. Chauntelle Limelight

(Ch. Edenborough Blue Bracken ex Sheldawyn Amber Tint)

Limelight is shown above going BOB at Santa Barbara K.C. on his way to 3rd Place in the Working Group. He is #1 Beardie in the Group Standings as of the October 1981 AKC Show Records. Through September 1981, Limelight has taken three Group 1sts, 17 Group Placements, and a Best in Show.

Congratulations to Limelight's first champion, Ch. Ha'Penny Moonshadow, co-owned with Robert Greitzer, who completed his championship at 10 months of age with BOW at Ox Ridge KC. Congratulations also to Limelight's daughter Ha'Penny Sweetwater Agility for going Winners Bitch and Best of Winners at the BCCA National Specialty, while Moonshadow went Winners Dog, each at 9 months of age.

Limelight is at limited stud to bitches who have completed their championships. His hips (OFA BC-185) and eyes have been certified clear.
