9.4.2	<p><b>Herding Dog of the Year Award</b> is awarded to the first ranked bearded collie in the Started, Intermediate, and Advanced levels of the AKC Herding Trial Program each year in accordance with the current AKC Herding regulations. The ranking of each dog at each level will be calculated as follows: first, identify the three highest point counts, then take the scores associated with the highest point counts.</p> <p>A. Points:</p> <p>A dog earns one point for every dog which had a lower or non-qualifying score in the class at that Trial. High in Trial carries points equal to the total dogs in competition in that trial minus one point, instead of class points. Reserve High in Trial carries points equal to the total dogs in competition in that trial minus two points, instead of class points.</p> <p>B. Ranking:</p> <p>At each level, the dog's three highest point counts from three different judges will be averaged to two decimal places. The scores of those three runs will be averaged to two decimal places. If a dog has one or more identical point count(s) under different judges, the higher scores(s) will be used in the calculations. The two averages will be added together. The dog with the highest combined average at each AKC herding level will be ranked #1, etc.</p> <p>C. Ties:</p> <p>Using only the three runs determined by items A and B above, ties will be broken by: The highest average placement in the classes. The highest average point count. The highest average score.</p> <p>All points/scores will apply at each level in the year of completion of the title, regardless of the year earned, except that once the Advanced title has been earned, for the next and subsequent years, points and scores must be earned within each calendar year. 01/99-03</p>

Each winner shall also receive an award to be retained permanently by the owner.</p> <p>The BCCA herding chair shall be responsible for tabulating all qualifying scores and numbers of dogs outscored. The points shall be taken only from the official AKC Awards and shall be calculated as follows:</p> <p>The three highest actual scores earned on sheep on any course at trials held within each calendar year shall be averaged to 100ths of a point;</p> <p>The three highest actual scores earned on sheep on any course at trials held within each calendar year shall be averaged to 100ths of a point;</p> <p>The three highest actual number of dogs outscored on sheep on any course at trials held within each calendar year shall be averaged to 100ths of a point;</p> <p>These average point counts shall be added together and the one dog with the highest point average shall be deemed the winner of the Bishop Award.</p> <p>Should a tie occur, the tie shall be broken as follows:</p> <p>The dog whose scores and numbers come from a higher class or classes shall be declared the winner. Should Provision (a) not break the tie, then the dog which has the most High In Trial wins throughout the calendar year shall be declared the winner.</p> <p>If no prospective winner has attained a high in trial win, then the number of reserve high in trial(s) or the higher average of actual class placements shall determine the winner. 09/06-12</p>
