

GUIDELINES FOR BCCA PUBLICATIONS

Revised January, 2008

Committee: The Publications Committee shall consist of the Editors of each BCCA Publication and other interested persons, including a chairperson appointed by the BCCA Board. The committee should work toward the continuing improvement of all BCCA publications, including technical and financial recommendations. Any special projects undertaken, whether directed by the Board or by members of the Publications Committee, will fall under the supervision of the committee, with findings to be reported to the Board by the Publications Committee chairperson.

Editors: The editors of the Beardie Bulletin and Newsletter shall at all times be subject to the final authority of the BCCA Board. The editors should be included by the Board in any decision making process which directly involved their workload or schedule. The Board will give due consideration to the technical expertise and specialized knowledge of the editors when making decisions in matters affecting club publications. It is recognized that the editors will need to exercise a fair amount of their own discretion throughout the publication process; however, the editors will strictly adhere to the editorial policies adopted by the BCCA Board. Editors of both the Beardie Bulletin and the BCCA Newsletter shall be bound by signed contracts between themselves and the club prior to taking on the role of editor. Contracts will be renewed on a yearly basis.

Editorial Policy:

1. A member may send a letter to the Newsletter or Beardie Bulletin.
2. Letters must be written in a civil, respectful and business-like manner.
3. Letters, articles or other communiqués containing personal attacks against persons or dogs are unacceptable. For the purposes of Editorial Policy, a personal attack is defined as any discourse that disparages the integrity, motives, personality or credibility of a specific individual and/or dog(s).
4. Letters and articles which excessively praise or compliment individuals or dogs are inappropriate and will be rejected.
5. BCCA publications are not a forum for disputes among individuals. Members are free to use the publications as a place to discuss issues facing the Bearded Collie, the BCCA and related subjects. Publications are not to be used as a forum for venting personal disagreements. No letters to specific individuals will be published in any BCCA publication without permission of the author.
6. Upon receipt of material for publication that does not comply with the above referenced guidelines, the editor shall contact the author and request that the material be rewritten in a manner which complies. Should the author refuse, the letter will be forwarded to the Publications Committee for review and approval or rejection of the material.
7. Should material be presented which may call for a timely response, the editor will contact the appropriate responding party and offer the opportunity to make such a response, within a time frame that will ensure timely publication. Should such a response not be received within a timely basis, the publication will go to the publisher without such a response.
8. Letters should be as concise as possible, preferably no longer than 250 words. Committee and officers reports should also be concise, preferably no longer than 500 words. The editor should use his/her discretion in publishing material in excess of these guidelines.
9. Errata: Should a member feel that an ad or article contains erroneous information, they will first contact the author. Should the author refuse or fail to address the perceived errors, the matter may then be brought to the attention of the editor. The "complaint" should be accompanied by documentation establishing that an error has been made. The editor may then at his/her discretion contact the author, publish the correction or both. The complainant bears the burden of documenting that an error exists.

Advertising:

1. BCCA publications will not accept political advertising. This shall include endorsement letters for candidates.
2. All advertisements accepted for publication in the Beardie Bulletin quoting a dog's standing must quote a current National Ranking System and date, where that standing has already been published. Should the advertisement fail to list the National Ranking system, the ranking or statistic will be deleted from the advertisement or the advertisement may be refused.
3. Free advertising will not be offered in any club publication. This will not apply to specific advertising permitted under the Administrative policies nor to advertising outlined in these Guidelines.

Extenuating circumstances can be brought before the Publications Committee for review and a decision will be rendered on a case-by-case situation.
