AMERICAN KENNEL CLUB

SCHEDULE OF POINTS FOR DIVISION 6 - EFFECTIVE MAY 15, 2013

Division 6 is comprised of: Iowa, Kansas, Missouri, Nebraska

For complete Conformation Championship requirements see **Chapter 16** of the Rules Applying to Dog Shows

The Points toward a Championship shall be awarded to the Winners Dog and Bitch of each breed or variety based on the actual number of dogs or bitches competing in that breed or variety.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Breed or Variety, the dogs of both sexes that have been entered for Best of Breed or Variety competition and that have been defeated in such competition, shall be counted in addition to the dogs that completed in the regular classes for its sex in calculating championship points.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Opposite Sex to Best of Breed or Variety, the dogs of its own sex that have been entered for Best of Breed or Variety competition that have been defeated in competition for Best of Opposite Sex, shall be counted in addition to the dogs that completed in the regular classes for its sex in calculating championship points.

After points have been computed for Winners Dog and Winners Bitch subject to the above two stipulations, the dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater.

In counting the number of eligible dogs in competition, a dog that is disqualified, or that is dismissed, excused or ordered from the ring by the judge, or from which all awards are withheld shall not be included. Any dog which shall have won fifteen points shall become a Champion of Record, if six or more of said points shall have been won at two shows with a rating of three or more championship points each and under two different judges, and some one or more of the balance of said points shall have been won under some other judge or judges than the two judges referred to above.

Points Schedule for Bearded Collies in Division 6

Points:	1	2	3	4	5
Dog	2	4	5	6	7
Bitch	2	4	5	6	7

How To Figure Points If Your Champion Dog or Bitch Goes Best of Breed

Grand Championship (GCH) points for BOB will be calculated according to the number of dogs of both sexes competing in the regular classes, as well as those dogs competing in Best of Breed competition. In no case shall BOB receive fewer GCH points than BOS.

A dog awarded BOS will be credited with all of the dogs of that sex competing in the regular classes, as well as those dogs of that sex competing in BOB.

A dog awarded Select Dog or Select Bitch will be credited with all of the dogs of that sex defeated in the regular classes, as well as those dogs of that sex defeated in BOB (i.e. Two less than the total entry of their sex.)

GCH points may only be awarded to Champions that are entered in BOB or winners of non-regular classes that are competing in BOB.

TIPS: Veteran dogs or any other non-regular class dogs are not counted in determining points. All eligible entrants from non-regular classes can earn Grand Championship points. Any Champion dog from the regular or non-regular classes is not considered for the requirement to defeat at least one Champion of Record at three shows.

TIPS: When counting dogs in competition, you only count dogs present that are judged. Dogs that are disqualified, dismissed, excused, absentee or have all awards withheld do not count.

Bearded Collie Breed Standard

Characteristics

The Bearded Collie is hardy and active, with an aura of strength and agility characteristic of a real working dog. Bred for centuries as a companion and servant of man, the Bearded Collie is a devoted and intelligent member of the family. He is stable and self-confident, showing no signs of shyness or aggression. This is a natural and unspoiled breed.

General Appearance

The Bearded Collie is a medium sized dog with a medium length coat that follows the natural lines of the body and allows plenty of daylight under the body. The body is long and lean, and, though strongly made, does not appear heavy. A bright inquiring expression is a distinctive feature of the breed. The Bearded Collie should be shown in a natural stance.

Head

The head is in proportion to the size of the dog. The skull is broad and flat; the stop is moderate; the cheeks are well filled beneath the eyes; the muzzle is strong and full; the foreface is equal in length to the distance between the stop and occiput. The nose is large and squarish. A snipy muzzle is to be penalized. (See Color section for pigmentation.) *Eyes:* The eyes are large, expressive, soft and affectionate, but not round nor protruding, and are set widely apart. The eyebrows are arched to the sides to frame the eyes and are long enough to blend smoothly into the coat on the sides of the head. (See Color section for eye color.) *Ears:* The ears are medium sized, hanging and covered with long hair. They are set level with the eyes. When the dog is alert, the ears have a slight lift at the base. *Teeth:* The teeth are strong and white, meeting in a scissors bite. Full dentition is desirable.

Neck

The neck is in proportion to the length of the body, strong and slightly arched, blending smoothly into the shoulders.

Forequarters

The shoulders are well laid back at an angle of approximately 45°; a line drawn from the highest point of the shoulder blade to the forward point of articulation approximates a right angle with a line from the forward point of articulation to the point of the elbow. The tops of the shoulder blades lie in against the withers, but they slope outwards from there sufficiently to accommodate the desired spring of ribs. The legs are straight and vertical, with substantial, but not heavy, bone and are covered with shaggy hair all around. The pasterns are flexible without weakness.

Body

The body is longer than it is high in an approximate ratio of five to four, length measured from point of chest to point of buttocks, height measured at the highest point of the withers. The length of the back comes from the length of the ribcage and not that of the loin. The back is level. The ribs are well sprung from the spine but are flat at the sides. The chest is deep, reaching at least to the elbows. The loins are strong. The level back line blends smoothly into the curve of the rump. A flat croup or a steep croup is to be severely penalized.

Hindquarters

The hind legs are powerful and muscular at the thighs with well bent stifles. The hocks are low. In normal stance, the bones below the hocks are perpendicular to the ground and parallel to each other when viewed from the rear; the hind feet fall just behind a perpendicular line from the point of buttocks when viewed from the side. The legs are covered with shaggy hair all around. *Tail:* The tail is set low and is long enough for the end of the bone to reach at least the point of the hocks. It is normally carried low with an upward swirl at the tip while the dog is standing. When the dog is excited or in motion, the curve is accentuated and the tail may be raised but is never carried beyond a vertical line. The tail is covered with abundant hair.

Feet

The feet are oval in shape with the soles well padded. The toes are arched and close together, and well covered with hair including between the pads.

Coat

The coat is double with the undercoat soft, furry and close. The outercoat is flat, harsh, strong and shaggy, free from wooliness and curl, although a slight wave is permissible. The coat falls naturally to either side but must never be artificially parted. The length and density of the hair are sufficient to provide a protective coat and to enhance the shape of the dog, but not so profuse as to obscure the natural lines of the body. The dog should be shown as naturally as is consistent with good grooming but the coat must not be trimmed in any way. On the head, the bridge of the nose is sparsely covered with hair which is slightly longer on the sides to cover the lips. From the cheeks, the lower lips and under the chin, the coat increases in length towards the chest, forming the typical beard. An excessively long, silky coat or one which has been trimmed in any way must be severely penalized.

Color

Coat: All Bearded Collies are born either black, blue, brown or fawn, with or without white markings. With maturity, the coat color may lighten, so that a born black may become any shade of gray from black to slate to silver, a born brown from chocolate to sandy. Blues and fawns also show shades from dark to light. Where white occurs, it only appears on the foreface as a blaze, on the skull, on the tip of the tail, on the chest, legs and feet and around the neck. The white hair does not grow on the body behind the shoulder nor on the face to surround the eyes. Tan markings occasionally appear and are acceptable on the eyebrows, inside the ears, on the cheeks, under the root of the tail, and on the legs where the white joins the main color. *Pigmentation:* Pigmentation on the Bearded Collie follows coat color. In a born black, the eye rims, nose and lips are black, whereas in the born blue, the pigmentation is a blue-gray color. A born brown dog has brown pigmentation and born fawns a correspondingly lighter brown. The pigmentation is completely filled in and shows no sign of spots. *Eyes:* Eye color will generally tone with the coat color. In a born blue or fawn, the distinctively lighter eyes are correct and must not be penalized.

Size

The ideal height at the withers is 21-22 inches for adult dogs and 20-21 inches for adult bitches. Height over and under the ideal is to be severely penalized. The express objective of this criterion is to insure that the Bearded Collie remains a medium sized dog.

Gait

Movement is free, supple and powerful. Balance combines good reach in forequarters with strong drive in hindquarters. The back remains firm and level. The feet are lifted only enough to clear the ground, giving the impression that the dog glides along making minimum contact. Movement is lithe and flexible to enable the dog to make the sharp turns and sudden stops required of the sheepdog. When viewed from the front and rear, the front and rear legs travel in the same plane from the shoulder and hip joint to pads at all speeds. Legs remain straight, but feet move inward as speed increases until the edges of the feet converge on a center line at a fast trot.

Serious Faults:

- snipy muzzle
- flat croup or steep croup
- excessively long, silky coat
- trimmed or sculptured coat
- height over or under the ideal

Special Attraction - Top Twenty Tournament

Thursday, October 3, 2013

Invitations to participate in the Top Twenty Tournament will be issued based on the 2012 AKC Breed Rankings. The participating handlers will meet one hour before judging begins (late afternoon/early evening, after completion of bitch judging and the Judges Education seminar) to draw the order of entry in the ring. Each dog will then be shown individually and scored by a panel of three judges (a herding group/BIS judge, a breeder judge, and a handler judge). The identity of the judges will be revealed at the time of the competition. Each entry will receive a rosette and, and two tickets to the hors d'oeuvre cocktail reception which will be held after judging is completed. The winner will receive a crystal trophy and rosette.

CHET JEZIERSKI

An artist with an eye for a dog, he was selected as the BCCA's 2002 Member of the Year for his work on the club's official illustrated standard. His dog art is collected worldwide and his photography of the breed is also recognized as another of his award-winning offerings to the fancy. He is the recipient of 20 DWAA Maxwell awards for his AKC Gazette covers and Dog News photo essays on the sport of pure bred dogs. As Michele Ritter's "other half," Chet's exposure to Beardies goes back to 1980 when on a trip to England, they acquired a youngster, the beardie who would become BIS & BISS Am/Can CH Bendale Special Lady UD. Lady was the foundation of Britannia beardies, and helped establish them as an influential and successful kennel. Their record of success and achievement stands alone.

PAT HASTINGS

Pat Hastings has been involved in the dog world since 1959. Her career has progressed from owner-handler to breeder, professional handler, educator and AKC judge for the Working, Herding and Non-Sporting Groups, 22 Terrier Breeds, Junior Handling and Best In Show. Her credentials range from 4-H leadership to show chair of the Doberman Pinscher National Specialty, from DPCA Judges Education to participation on a number of panels and committees concerning canine structure and health issues. She has authored many articles that have appeared in a variety of publications.

Over years of research, Pat and her husband, the late E.R. "Bob" Hastings, developed the structural evaluation process detailed in their highly acclaimed Puppy Puzzle DVD. Pat has been doing a presentation, based on the Hastings' evaluation process, at National Specialties throughout the United States for twenty years. She also presents full seminars around the world. Pat has written three books, "Tricks of the Trade: From Best Intentions to Best In Show", "Another Piece of the Puzzle: Puppy Development" and "Structure in Action: The Makings of a Durable Dog".

Besides teaching others this structural evaluation process, Pat also evaluates an average of 350 litters per year across all groups.

Pat has been very active in club work over the years, holding numerous offices, including show chair for all breed and specialty clubs to myriad committees. She has been active in the Yakima Valley KC (Washington State), the Mt Hood Doberman Pinscher Club (Oregon), the Doberman Pinscher Club of America and the Oregon Judges Group. The Hastings received the DPCA Lifetime Achievement Award in 2001.

As handlers, Pat & Bob showed many Bearded Collies including winning numerous all breed Best In Shows. Pat also co-bred a few Beardie litters.

GINGER KINION

Thank you for inviting me to judge your National Specialty. I have been judging obedience for the past twenty years and have been training and showing dogs in obedience for about twenty-nine years. My dogs have included five shelties, three Tibetan terriers, a miniature pinscher, and a poodle mix. For my real job I taught sixth grade for 26 years and am now retired. I have two children and four grandchildren and have been a widow for 15 years. At present I have two shelties, one Tibetan Terrier and a cat.

Hopefully all the exhibitors will obtain their goals at the specialty and have a great day. Good luck and best wishes to everyone.

Herding Tests & Trials

Saturday, & Sunday, September 28th & 29th

ALAN KOEBKE

My name is Alan Koebke, I am very honored to have been asked to judge the Bearded Collies National this fall in St. Louis. I have been an AKC judge for over 16 years and have been doing herding for over 20 years. My wife and I live on 12 acres in Van Alstyne, Texas, where we run a dog training facility for both obedience and herding. By day I am a Teacher and Coach Wrestling at Plano East Sr. Hi. I am very grateful to have been asked to judge and am looking forward to this Trial.

SEAN HATHAWAY

Team-work. It is the basis of our life. We got our first Belgian Tervuren, Timber (DC HR Timberline Charswirl's Ace), in 1989. He was originally intended to be JUST an obedience and conformation dog and we started him in those areas. But his breeder was into the herding so we thought we'd give it a try. After a couple lessons we were hooked.

We did this for about a year and a half. Our trainer didn't believe in course training so when Sharol first set foot on a trial field she had no idea what to do. It was the 1991 National Specialty in Pennsylvania.

In 1991 we bought our own sheep. Our original five sheep grew into what is now a flock of 72 sheep and 60 ducks. Gradually, we started to figure it out. We went to some clinics but, of course, we learned the people usually giving them really had no idea about how to train a Terv. Many of them knew herding but the "just let them work" philosophy was very strong at that time.

We have developed a method of training over the years that is successful for many upstanding breeds. Our first love is the Belgian Tervuren, followed by the rest of the Belgian family, then moving on to the other workers in the herding world.

We have taken HIT and/or RHIT at numerous ABTC Nationals and all breed Trials with Tervs and other breeds. We have co-handled several different breeds to advanced levels in AKC and AHBA. We have co-handled a Malinois and a Border Collie to AKC HC level. Our Dogs have made #1 Herding dog, and our dogs are usually in the top ten with limited showing. One of dogs at this time would have an HC 6 if AKC allowed for such a thing.

We believe that great herding teams DO require a balance of power in the dog-handler relationship. If you do not have that working relationship with your dog, there is nothing that ANY clinician can ever change your final ability level. Realizing your team's limitations will be the best thing that you can do overall.

Our basic Philosophy: Whatever you do, be happy with your dog and enjoy them for whatever they can give you in the short time you have together! HAPPY HERDING!

Cooper

Cooper began his therapy career when he was certified through Therapy Dogs International on May 1, 2011 and earned this Therapy Dog Title in Sept. of 2012. He has been visiting a skilled nursing facility weekly for the past 2 years and now knows all of the residents he visits regularly and which rooms they reside in.

He has also made visits to group homes, outpatient programs and hospitals for people diagnosed with major mental illness where he enjoys demonstrating his Noseworks skills.

He is also a founding therapy dog of "Dogability", an agency serving individuals with all types of disabilities.

Rescue

Bella, a rescue in 2002, was the reason I became interested in agility and then the Bearded Collie breed. She was a natural at agility. She earned a Rally Excellent title, and then a Companion Dog title, that she completed at the 2009 BCCA National Specialty in Minnesota, with my husband Paul, who is wheelchair bound. The BCCA awarded her a Versatility title. Retired now, due to a leg injury, she is a happy and much loved companion.

Madeline

Rescue

Madeline was found walking the streets near Atlanta very matted with skin issues and taken to the Gwinnett County Animal Shelter. Andrea Hobe was able to get her placed in the BCCA National Rescue Program. She was lovingly cared for and evaluated by Andrea and is now continuing to thrive and be loved by Jerry and Robin Lord and crew and Aunt Pat Sturdivant in Pennsylvania. During her foraging, she became a master corn shucker!.

Rescue

Shayla

One day as I was passing through the boarding facility at the veterinary clinic where I work I saw a beautiful dog that was looking for a forever home. I immediately fell in love with this sweet black and white furball with big brown eyes and just couldn't say no to taking her home with me. I found out she was originally a show dog, but her career ended after her owner found out she had hip dysplasia. She had been given to a second home, but it didn't work out. She was very timid and she would shut down at nearly anything, but we've been training for agility since I adopted her and we started competing in January of 2013. I have been honored to see her blossom into such an amazing dog..

Titleholder

Cooper earned his first title, his CGC, in 2010 when he was 9 months old. He became a therapy dog in May of 2011, visiting a nursing home weekly, earning his THD in Sept. of 2012.

In July of 2012, Cooper became the second Beardie in the country to earn his Noseworks I Title.

He entered his first Rally trial in Jan. 2011, earning his Rally Novice the next month. In 2013 Cooper earned his Rally Advanced, placing first in two trials and third in one trial. He entered two Rally Excellent trials this past summer and insisted on performing the course the way he wanted to, and not how the judge had designed it. He continues to work for this title.

She has her own ducks now, and loves working "the boys". Khieyah also has done well in the Rally ring, and we're hoping to soon get her Rally Advanced title.
