

The Bearded Collie Club of America RESCUE PROGRAM

TO: All personnel of shelters, humane societies, pounds.... and other interested parties

FROM: _____

(printed name of local representative)

(telephone number of local representative)

If a lost, abandoned, or rejected Bearded Collie is placed in your facility, or comes to your attention, please notify me immediately at the above number. I am part of a nationwide rescue network, sponsored by the national parent club, which seeks to help the Bearded Collie ("Beardie") find his original owner if he is lost, or find a new home if he has been abandoned.

If there is no answer at my phone, please contact the national coordinator, Kathy Coxwell, at (251) 743-4055. You may call collect.

The BEARDED COLLIE is a shaggy-appearing, medium-sized dog with a medium-length coat. The outer coat is flat and harsh. The undercoat is soft and furry. The Beardie has a long, lean body, with a bright, inquiring expression in his eyes that is a distinctive feature of the breed.

Beardies can be shades of BLACK, BROWN, FAWN or BLUE (blue-grey), with or without white markings on the face, neck, chest, paws, forelegs, and tip of tail.

THANK YOU FOR YOUR CONSIDERATION OF THE BEARDED COLLIE.
