HISTORICAL NOTE: A BEARDIE FOUNDER'S PEDIGREE

No doubt, many know the name Turnbull's Blue (3/3/78) who was the last "founder" and non-KC registered working Bearded Collie with progeny accepted for KC registration. Blue was bred by Paul Turnbull and Blue's was the last introduction of fresh blood into KC registered Beardies. Blue was registered on merit with the ISDS (International Sheep Dog Society) after Paul Turnbull had demonstrated Blue's ability to handle stock on numerous occasions.

TURNBULL'S BLUE

In most every reference to Blue's pedigree, the sire is Reid's Scott and the dam is Morland's Nan. Recently on the Facebook page of Beardies That Work Stock there was an article about Blue from the W.S. News, No 9/10, #2, Nov/Dec 1979. It listed Howieson's Baldy as Blue's sire. There was a correction posted below the article by E. McDonough that Howieson's Scott (not H Baldy) was Blue's sire.

To say the least I was confused. Who was Howison's Scott? Why did all the records say Reid's Scott? How was I going to find out? I mulled this over. Of course, I could simply have posted to that Facebook group. But then I remembered a well documented source on the Shepherds With Beardies website - www.shepherdswithbeardies.com. The material was assembled over a number of years by a former BCCA member, Judi Max. Her husband, Alan, was active and successful herding with their Beardies in Arizona in the earlier days (Casey, only Beardie HXAc to date and ASCA WTCH; CJ, HSAs; Brody, HSAs & several ASCA titles; Ceba*, HSAs, HIAs, several AHBA titles, ASCA WTCH; Siri*, HXAs, several AHBA titles, ASCA WTCH). Judi went to trials and some training sessions; Alan trained and trialed their dogs.

Judi listened to stories about how Beardies worked stock in the UK, wondered how true they were, and decided to see for herself and to learn about the shepherds. She did extensive travel, interviews, book purchases, travel to museums to trace old documentation, photographs, and paintings. She also held several herding clinics here with shepherds as guests. During this time, Judi and Alan imported several working Beardies* that were trialed quite successfully here. Judi noted that there was no comparison of their previous Beardies to the working Beardies; the latter knew instinctively from the very start what to do. Her decision to share the accumulated knowledge resulted in the website.

I went to the shepherd's section of the website, to Scotland, and looked up one of the shepherds who had visited Arizona (P Woods). He had written about Ronnie Morland who had used Turnbull's Blue on several of his working Beardie bitches; there it was documented that the owner (A Reid) of Blue's sire (Scott) had loaned Scott to G Howison. Thus, it is that Reid's Scott = Howison's Scott. Without Judi's interview of Peter Wood about Ronnie Morland (owner of Morland's Nan, Blue's dam), I might not have solved the puzzle.

So, if you remain mostly constrained to house and home by COVID19 and have totally run out of things to do, go enjoy reading Judi's website about shepherd life with Beardies. It is fascinating to learn how our beloved Beardies' ancestors lived and worked.
