NEW AHBA TITLED BEARDIE

Pentangle's Maybe I'm Amazed, HTAD 1-s on 5/24/2023, owned by Wanda Packard

WHEN ARE TITLES AND QUALIFYING RUNS POSTED IN HERDING DATABASE?

- AKC Titles – monthly
- AKC Instinct Certificate – these are not reported in the AKC monthly report to parent clubs. Therefore, you need to notify me and send a copy of the certificate so I can put the information into the database.

- BCCA Instinct Certificate – within a month to 6 weeks of an event, depending on when paperwork from sponsor is received by HIC secretary
- AKC Qualifying Runs – quarterly (late in - April, July, Oct, Jan)
- AHBA Titles – quarterly (currently April, July, Oct, Jan). Note: the “dates” of an AHBA title are the date the title certificate is written, not date of trial.
- ASCA Titles – irregularly because ASCA has no reporting mechanism; if you obtain an ASCA title, it is best to notify me and send a copy of the title certificate.

TRIBUTE TO SYDNEY JONES AND HER FIRST BEARDIE, BISHOP

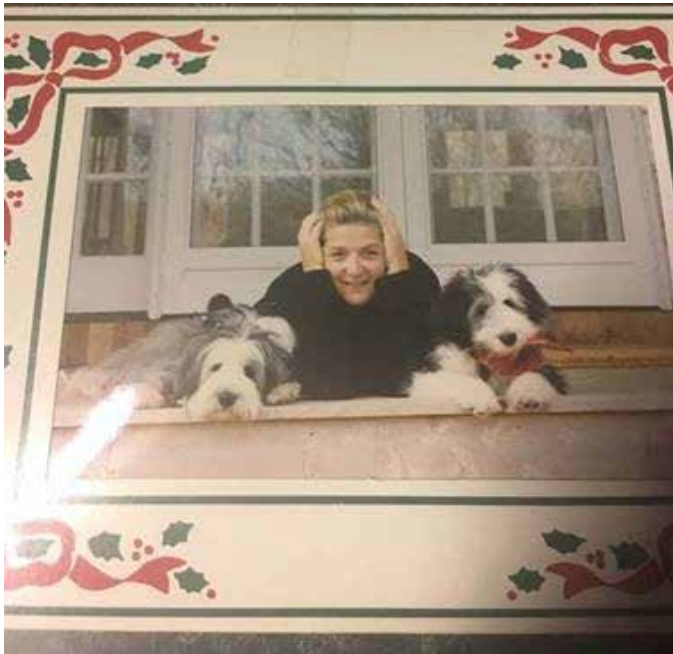

Sydney passed away late May as best I can tell. Several years ago I had asked Sydney about why the BCCA annual Bishop Award for Herding Excellence on Sheep was named Bishop. This is some of the story in Sydney's words.

On the left with the toothy grin and the mischievous look in her eyes is my Bishop. She is looking down from the heavens saying congratulations to the winner of this year's Award. Next to her is my beautiful Kiri who was as sweet as Bishop was fun and tricky. Bishop was the ultimate sheep lover and escape artist. How I met Bishop: after my little 'Frolic' passed away I found Bishop (Louise Bishop Culkin) on the side of the road in front of my mother and grandmother's houses 8 days later. I had always

wanted a Beardie so badly and there she was. After getting Bishop somewhat under control, 6 months later I got little Kiri. The Bishop escape alerts were the inspiration for an 8 foot chain link fence with one foot of chicken wire buried under the ground. The Bishbeast was such a joy and a pain in the butt. Kiri was just a love bug.

Sydney must have loved the ocean and all it offers the soul; there were many such photos on her FaceBook page. RIP and thank you for supporting a beautiful BCCA Herding annual award for so many years (initiated 2006 - to end in 2025) in honor of your Bishop. The large trophy kept by winners for a year was retired in 2022 along with all other large BCCA challenge and perpetual trophies. Small keepsake Bishop replicas will continue through 2025.

May every BCCA competitor remember to thank the donor, if accessible, for your next Award or Trophy. That simple act will tangibly recognize the generosity that those donors have offered to our Beardie community.

TRAINING AT HOME

Joanne Williamson • balgrae@ix.netcom.com

TRAINING EQUIPMENT

The tunnel pictured below is about 4 feet long. It is made of competition-grade materials but VERY short. I think it's perfect for small indoor (or outdoor) spaces and to introduce puppies to tunnels . . . no more scrunching a big tunnel up so you can reach through and get your puppy's attention! And it comes with appropriately sized sand bags. Looking forward to using it with Allie and Truman when we're working indoors. Note: I would expect this tunnel can be purchased from a number of vendors; I bought mine from Clean Run - www.cleanrunproductions.com

FOUNDATION TRAINING

Allie is now 3.5 months old. I have tried to work with her on something every day. Now that she has had several vaccinations, she has been coming with Truman and I to agility trials. These have been great experiences for her, first, because of it has given her exposure to new situations, noises, and strange people and dogs which is priceless at her age but, second, it has shown me which behaviors she understands best because she can perform them in the face of novel distractions. Her attention span has increased considerably and she has made progress on several fronts as shown in the video links below. I have also added some new behaviors.

Bond, Scent Work Committee chair, Beardie007@hotmail.com. Please submit your completed forms by August 15, 2023. Happy sniffing!

BARN HUNT AWARDS

The Novice Newbie Awards are given annually to the three fastest bearded collies in the Novice Class. Awards will be based on the fastest average times in three qualifying runs of an award year. The Barn Hunt Association provides the times on their website.

The Need For Speed Awards are given annually to the three fastest bearded collies in the Master Class. Awards will be based on qualifying run times in an award year. *Members who wish to be considered for this award must submit a photo of the qualifying ribbon with the run times recorded by the trial secretary.*

Progress with the perch pivot: <https://vimeo.com/846474502>
Work on stay: <https://vimeo.com/846479475>

I try to make sure when I leave my dog on a stay my first step away is with the leg away from the dog to encourage staying in place. I noticed when editing this video that I was a little careless about this in the training session so I will try to be more consistent in the future. This past weekend I had a practical application for Allie's stay training. We travel to shows in a large van and I like to get out of the van ahead of the dogs so that I am on the ground when they exit. Allie is perfectly capable of getting down on her own, but was willing to sit next to her sister, Vika, and wait until released to get out!

This behavior is almost ready to use to train for 2On:2Off contacts.

Wanted to try training this but not sure what I'll use it for. The first couple of times I clicked/treated for any part of her body on the mat. Right now she needs to give me at least half her body to earn a reward. I'm contemplating raising my criteria to laying straight on the mat.

COURSE OF THE MONTH

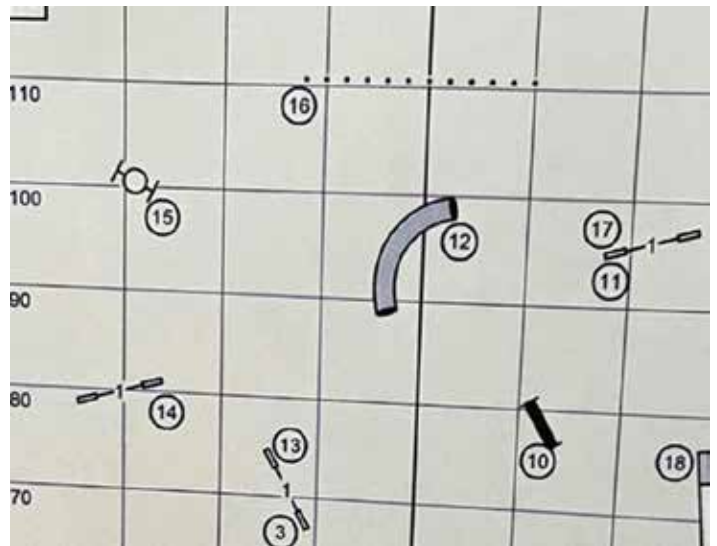

We'd like to see if there's any interest in a course analysis feature for the Bagpipes. It would be really nice if we could get input from other members who are interested in agility. Any level course would be fine to submit. Tell us about the course, why you think it's interesting, how you handled it and what would you do differently if you had the chance? Video would be great if you have it (a link to YouTube or Vimeo) but is not necessary.

I'll start this month with an AKC Masters Standard course designed by Jill Robertson that I didn't get to run for real but set-up in my field because I thought it provided some interesting challenges.

1-4 is best run with dog-on-left but the change in concavity after 5 requires some sort of side change to put dog-on-right for 5-8. That side change can be achieved in several ways. Most handlers would do either a front or blind cross on the landing side of 4; but a front cross could also be done after the dog has completed the seesaw. A rear cross between 4-5 could also be done if your beardie has that skill. I chose to lead out between 1 and 2 but about 15 feet from the right side of the A-frame to give me a head start on the front cross I planned on the landing side of 4. This strategy forced me to trust Truman to do the A-frame contact on his own. I then mirrored his path sending him to 3 from a lateral position, giving me plenty of time to complete the front cross before he took off for 4. 5-8 is a simple sequence on a curve to the table with dog-on-right.

The most challenging part of this course, in my opinion, is 9-17.

Notice that after jump-11 the natural line takes the dog to the weave poles NOT the tunnel which is the correct obstacle. If you can lead out from the table or are fast enough to outrun your beardie you can front cross between 9-10, send to 11 while moving laterally towards the tunnel and front cross at the exit of the tunnel, putting your beardie on your left to finish out the course. Another possibility is to front cross between 9-10 and do a reverse spin at 11 to tighten the turn to the tunnel. Doing the reverse spin could impact your ability to get the front cross at the tunnel exit so you might need to do a rear cross on the take-off side of 13. I'm not really fast enough to choose these strategies; in addition, at trials, I know Truman cannot be 100% trusted to stay on the table if I lead out. It is a weakness I work on constantly to improve in training but I can't neglect to remember it when I am trialing ("train your weaknesses/trial your strengths"). When I ran this sequence, I chose to run dog-on-left and rear cross on the take-off side of 11, with a "turn, tunnel" verbal. "Turn" tells Truman to go left after the jump, and "tunnel" tells him where he needs to go. I rear crossed on the take-off side of 13 to get the turn to the right and told Truman "out", my distance send command for 14-16. I layered the tunnel while Truman was doing the weave poles and ran with him (dog-on-left) for 17-19.

In addition to being a fun course to practice, the 9-18 portion provides a number of options to work on for those with less space and equipment. How would you change your handling to get the weave poles instead of the tunnel? Try alternating between asking for the tunnel and then the weave poles and see what you get! Another interesting possibility is 13-16, 12, 10 and then the backside of 11 (17 on the map). How about 3, 10, 12, 15?

Happy training until next month!

The competition year to qualify for the AKC Agility Invitationals to be held in Orlando, FL December 15-17, 2023 is now over. Each beardie earned one point for every full second under standard course time in Master Standard/JWW classes and 10 additional points for each QQ (qualifying in Standard and JWW on the same day). The top 5 in the regular classes and the top beardie in the preferred classes have received invitations to compete in Florida. If any of these decline the invitation, the next beardie in the rankings will be invited to compete. Congratulations to **Larry Dalan** who qualified with both **Bing** (Wigglesworth Pride And Prejudice) and **Ash** (Wigglesworth Wynsum Gone With The Wind), **Lori Weinberg and Spark** (Nonesuch Flint And Steel), **Jan Burgan and Tartan** (Tweeddale's Magic Tartan Of Brooknoll), and **Janice Leverenz and Lager** (Wynsum Turning On The Charm).
