USDAA TITLES JANUARY 2021 – JULY 2023

Libby Myers-Buhite and Joanne Williamson

USDAA (U.S. Dog Agility Association) was organized in 1986 by Ken Tatsch of Dallas, Texas eight years before the advent of AKC agility and is based on international standards. When AKC decided to add agility to its many offerings, they invited USDAA judges to give their input to the new program and asked several of them to become AKC judges as well. On August 11, 1994, the AKC's first licensed agility trial took place in Houston, Texas. Beardies have been competing in USDAA since April of 1992. Currently, 415 Beardies are registered. At least 175 have earned legs and 140 have earned titles. 3 new Beardies started in 2022: Heather Gahres' Disco, Christa McChancy's Duze, and Beth Scorzelli's Bramble.

Congratulations to Jeremy Haag and Heather Gahres' Kit. Recently USDAA combined Kit's unattributed Regular legs with her Performance legs, giving her several new retroactive Performance Champion Silver and Gold Titles! Kit has earned every Master and Championship title in both the Regular and Performance programs, including the ADCH and PDCH, the TM and the PTM-Gold.

Congratulations to all new Master and Champion titlists.

AGILITY COURSE OF THE MONTH • MASTER EXCELLENT STANDARD COURSE DESIGNED BY SUZI SCHMITZ

Joanne Williamson • balgrae@ix.netcom.com

I didn't actually run this course at a trial but thought it was interesting and set it up in my field to give it a try. I found the sequence 2-9 the most challenging part of the course

The 2-5 sequence, dog walk-jump-tunnel-jump is seen very frequently on standard courses. It requires your beardie to do his/her contact performance with a tunnel straight ahead but then not take that tunnel. This can be particularly challenging if you are doing running contacts. Even if you don't have contact obstacles at home, you can use a board or contact trainer and train

this motif because your beardie will be seeing it a lot. I chose to handle 1-2 by leading out with dog-on-left and pull to jump 3, then did a RC and sent to the tunnel-4 with dog on right, picking Truman up on my left out of the tunnel to the jump-seesaw combination. The send to the

qualifying scores in each tournament: Grand Prix, Steeplechase, Three-Dog Team

Class Titles
 Starters and Performance Starters titles require 3 Qs
 Advanced and Performance Advanced titles require 5 Qs
 Masters and Performance Masters titles require 5 Master Qs
 Snooker Master requires 5 Q's; 3 must be Super Qs (top 15%).
 Championships require 10 Master Q's,
 Bronze = 15, Silver = 25, Gold = 35

tunnel allowed me to get modestly ahead and pull right to jump 7. The first time I tried this sequence I went too far forward AND didn't move enough laterally causing Truman to sail right over the dummy wingless jump straight ahead of the seesaw. To get the turn on the 180, I did a FC on the landing side of 8 and sent to 9-10 with dog on right. A FC at the end of the poles put Truman on the table. The following link shows a video of this section of the course - <https://vimeo.com/868559656>. If you are able to outrun your beardie, an alternate strategy would be to front cross at the foot of the dog walk, send to 3-4 with dog on right, pick up your dog on your left out of the tunnel and FC (or BC) after the seesaw. It would then require a RC on the takeoff side of 7 to get the turn to 8 and then a rear cross on the take-off side of the tire or if you are fast enough a FC at the beginning of the weave poles. After the table, the handling of 12-20 is pretty straight forward. Dog on right 12-15, either a RC or a FC before 16, send to 17-18 with dog on left, FC or RC at the foot of the A-frame, dog on right for 19-20.

Happy training until next month!
