## 2014-2015 AKC AGILITY INVITATIONAL STANDINGS UPDATE

Joanne Willimson

The 2015 AKC Agility Invationals will be held in Orlando, FL December 11-13, 2015. In order to be invited to compete, a dog must be ranked in the Top 5 of its breed for the qualification year that runs from July 1, 2014 – June 30, 2015. The rankings below include the results for the quarter ending March 31, 2015; sixty-two total Beardies have earned at least 1 MACH point since July 1, 2014. Congratulations to all and good luck this spring!

## **WHAT IS A CHIC NUMBER, AND WHAT DOES IT MEAN?**

Maryann Szalka, BCCA Health Chair

The Canine Health Information Center, also known as CHIC, is a centralized canine health database sponsored by the Orthopedic Foundation for Animals (OFA).

### **MISSION STATEMENT**

To provide a source of health information for owners, breeders, and scientists, that will assist in breeding healthy dogs.

### **CHIC GOALS**

To work with parent clubs in the identification of health issues for which a central information system should be established.

To establish and maintain a central health information system in a manner that will support research into canine disease and provide health information to owners and breeders.

To establish scientifically valid diagnostic criteria for the acceptance of information into the database.

To base the availability of information on individually identified dogs at the consent of the owner.

### **CHIC POLICIES AND GUIDELINES**

The CHIC database is a tool that collects health information on individual animals from multiple sources. This centralized pool of data is maintained to assist breeders in making more informed breeding choices and for scientists in conducting research. In order for data to be included in CHIC, test results must be based on scientifically valid diagnostic criteria.

### **BREED SPECIFIC**

Core to the CHIC philosophy is the realization that each breed has different health concerns. Not all diseases have known modes of inheritance, nor do all diseases have screening tests. Some screening tests are based on phenotypic evaluation, others on genetic testing. With all these variables, a key element of CHIC is to customize or tailor the CHIC requirements to the needs of each breed. These unique requirements are established through input from the parent club prior to the breed's entry into the CHIC program. Breed specific requirements typically consist of the inherited diseases that are of the greatest concern and for which some screening test is available. Each parent club also drives specific screening protocols. As an example, one parent club may allow cardiac exams to be performed by a general practitioner. Another parent club may require the exam to be performed by a board certified cardiologist. A club may also use the CHIC program to maintain information on other health issues for anecdotal purposes. Later, as screening tests become available, the disease may be added to the breed specific requirements.

### **IDENTIFICATION**

Regardless of breed, each dog must be permanently identified in order to have test results included in CHIC. Permanent identification may be in the form of microchip or tattoo.

### **INFORMED CONSENT**

CHIC operates an informed consent database. Owners are encouraged to release all test results realizing it is in the ultimate health interests of the breed and the information greatly increases the depth and breadth of any resulting pedigree analysis. In order to qualify for a CHIC number, all results must be released into the public domain.

### **CHIC NUMBERS AND REPORTS**

A CHIC number is issued when test results are entered into the database satisfying each breed specific requirement, and when the owner of the dog has opted to release the results into the public domain. The CHIC number itself does not imply normal test results, only that all the required breed specific tests were performed and the results made publicly available.

A CHIC report is issued at the same time as the CHIC number. The CHIC report is a consolidated listing of the tests performed, the age of the dog when the tests were performed, and the corresponding test results. As new results are recorded, online CHIC information is updated.

Once included in the CHIC program, the breed specific requirements are dynamic. As health priorities within a breed change, or as new screening tests become available, the breed specific requirements can be modified to reflect the current environment. If the breed specific requirements are modified, existing CHIC numbers are not revoked. Again, the CHIC number is issued to a dog that completed all required tests at a given point in time.

CHIC will provide the parent club quarterly reports consisting of both aggregate numbers and specific dogs that have been issued CHIC numbers.

### **CHIC FEE STRUCTURE**

Test results from the OFA and CERF databases are shared automatically with the CHIC program. There is no fee to enter test results from either the OFA or CERF, and there is no requirement to fill out any additional forms.

To enter results into CHIC from another source such as PennHIP or parent club maintained databases, there is a one time per dog fee of \$25.00. To enter results from any of these organizations, a copy of the test results, the fee, and a signed note requesting the results be entered into the CHIC database should be sent to the OFA. Any additional results after the one time fee is paid are recorded at no charge. Additionally, there is no charge when entering results on an affected animal from a non-CERF/OFA source.

## THE THREE Z'S GO TO THE NATIONAL OBEDIENCE AND RALLY CHAMPIONSHIPS

Laurie Lo, Obedience Chair

Two BCCA members and their beardies participated in the National Obedience Championship and the National Rally Championship this past March. Posed in front of the Purina Event Center in Gray Summit, Missouri are Zeal (left), Zip (middle) and Zuzu (right). The green dog is an anonymous bystander.

Zeal, Bedlam's Joyful Journey UDX2 OM1 RN HSAd HSBd HIAAd, owned and trained by Laurie Lo, executed "random" exercises from Open and Utility at the Obedience National. Zip, CH Wigglesworth Zippitty Doo Dah RAE2, owned and trained by Barbara Erway, negotiated his way through both Advanced and Excellent level courses at the Rally National. Zuzu, CH Wigglesworth Sobe Wonder Girl NAJ XF, Zip's mom, sat quietly in her crate and watched her son strut his stuff.

Another bearded collie also participated in the National Rally Championship. April Gold's Double Your Pleasure BN RN and her owner, Karen Allen, competed at the Rally Novice level.

### HERDING

Elsa Sell, Chair

There are no new AKC or AHBA titles to report this month.

Remember to check the AKC web site events results after you have a qualifying run; you should be sure the date, judge, event name/#, and results are correct. Last year there were a few problems with data entry.

Summary of up to date AKC herding stats are coming in the next BCCA Beardie Bulletin.

Up to date reports (alphabetical) of AKC and AHBA titles are in the herding section of the BCCA website; likewise for the forms and information needed to run a HIC test.

AKC has a new field rep for herding – Alison Ruhe.

Owners are invited to write about their experience in training or trialing for future issues.

BeaCon's semiannual newsletter will be out soon; you may sign up for the free e-newsletter mailing list at this link - <http://www.beaconforhealth.org/Free-Subscription.html> In 2014 we saved \$700 in postage by going mostly to an e-newsletter, compared to 2012. This issue has owner stories about a drug overdose, autoimmune hemolytic anemia, and suffocation; and links to the open health registry report and how coefficients of inbreeding are calculated; the new canine influenza; symmetrical lupoid onychodystrophy research soon to begin, and pet insurance. The Board of Directors works to help improve knowledge about health issues in general and specific to the breed and to promote research. We thank the many individuals' and clubs' donations that help fund work and research efforts; donors are recognized on the website – [www.beaconforhealth.org](http://www.beaconforhealth.org). If you find any omissions or errors contact me please ([beaconbb@bellsouth.net](mailto:beaconbb@bellsouth.net)).

Elsa Sell, President
