

BAGPIPES *EXTRA Edition*

January 2020

OBEDIENCE BRAG

Kathy Thomas • beardies1234@msn.com

Congratulations to Sharon Prassa and her beardie Mae, Pentangle Skirts In The Dirt TD TDU HT PT HSAs, on being the first beardie team to earn the tracking dog urban (TDU) title.

The fundamental features of the Tracking Dog Urban (TDU) test are the dog's ability to follow a track laid by a person under a variety of scenting conditions in an urban environment and to find the articles dropped by that person. The track must be at

least 400 yards and not more than 500 yards in length and will have a minimum of two different surfaces, vegetated and non-vegetated. A track may be plotted on paved sidewalks, lightly traveled roads, baseball diamonds, parking lots and other non-vegetated surfaces. The track may be in the vicinity of buildings and other structures such as fences, breezeways, ramps, stairs, bridges, shelters, roofed parking garages, courtyards, and buildings with two or more openings.

VERSATILITY NEWS

Joanne Williamson • balgrae@ix.netcom.com

HC Tweeddale's Star Spangled BN RE HSAd HSBds HSDs HIAds HIBd HIDs HSAsM HXAdMsM OA OAJ OF RATO (Spring), owned by Terry Johnson and Linda Porter, is the 23rd Beardie to complete the requirements for a Master In Versatility award. Congratulations!

The following Beardies completed the requirements for Versatility Awards in October and November:

Barnhollow's Nonesuch Hivenlyn RN NA ACT2 CGC TKN, owned by Maryann Groves
Tweeddale's Meant To Be RN OA OAJ CGC TKP, owned by Patti & Don Niver

HERDING

Elsa Sell • beaconbb@bellsouth.net

REQUEST TO THE MEMBERSHIP FOR 2021 SPECIALTY HERDING JUDGE NOMINATIONS.

Per the standing rules, the membership is asked to submit nominations for the specialty herding trial. Please do so in writing to Elsa Sell, 764 Liberty Rd., Milner, GA 30257 or by email – beaconbb@bellsouth.net. You must include the highest herding title that you (not the nominees) have earned. The closing date for receipt of nominations will be mid-March, 60 days after the Bagpipes is distributed. The BCCA Herding Committee will review nominations and forward a list of recommended judges to the National herding chair. The trial will be held at Packleader Farm, Gig Harbor, WA, September 18-19, 2021.

The 2019 BCCA AKC Herding Awards will be calculated after the last quarter herding stats report is received from AKC. Results will be available in the Feb or March Bagpipes.

Wouldn't you enjoy seeing your Beardie's herding story here? Then take the time to gather some photos of training or trialing and send along with your story of his or her success in gaining their recent herding title – the challenges, the solutions, that day of the title run – to Elsa at beaconbb@bellsouth.net

Congratulations to two new herding champions, one each in AHBA and AKC, presented in chronologic order of championship date. *(continues next page)*

HTCH CH SURFSONG'S CELEBRATION CD RE HSADS HIAS NA NAJ

Guinness, owned by Ray Salmon and Ann Rambaud, earned his, AHBA Herding Championship 10/16/2019. He is the seventh Beardie with a HTCH. The others are Artisan Northern Night (2009), Dogtown Leader of the Pack (2009), Artisan Northern Knight (2011), Chantilly Dusta Ol Fashion Love Song (2012), Cynamen Artisan Rising Star (2012), and Pentangle's If You Please (2018).

Guinness' AHBA career came relatively late. He earned his HTADIII's title in 2016, then concentrated on CKC trials, with occasional trips south to AKC trials. However, after completing his CKC Herding Championship in September 2017 and Herding Excellent in July 2018, what was next for him? As an 11-year-old dog, he had limited time to look forward to as an active herder. But he did pick up six AHBA CH points in 2017 - 2018.

AHBA trials were relatively few in NW Canada, travel to American trials is expensive and recent border tensions tend to discourage unnecessary crossings. But luckily, a series of trials was scheduled at Downriver and Karab farms in 2019. Could a 12-yr-old dog manage to nail those last four points before trials ended for the year? Our boy did it! Between September 6 and October 26, Guinness captured five more points, completing his retirement series of trials in fine style.

Guinness is not entirely happy with his retirement, but we let him work sheep when we have the opportunity. But he has become a chronic barker - which bothers him not at all, but may not endear him to judges - and a little less precise in his responses. So it was inevitable that his trialing come to a finish. Fortunately we are not left without an active herder. Guinness'

companion, BO (Winberlee's Back in Black), is a late starter at herding, but shows signs of filling in the gap left by Guinness with a vengeance. At nine years old, his herding time may be limited, but he finished the season October 26th with two CH points and HIT scores of 89 and 90. So he will keep us travelling to trials for a few years yet.

Before finishing, I must give credit to Kristin Thomson, our trainer and handler, as we realised that Guinness worked better for her than he ever would for me! While I would love to be in the ring myself with my boy, it worked out much better for him to be herding with his dear friend, Kristin.

Ray Salmon

The mission of the Bearded Collie Club of America is to protect the long-term welfare of the breed by providing a variety of opportunities for Beardie owners, breeders, and the general public to learn, connect, and compete, while supporting research into breed-specific health issues and rescuing Beardies in need.

HC TWEEDDALE'S STAR SPANGLED BN RE HXASDM HIBD HSBS HIDS OA OAJ OF RATO,

Spring, owned by Terry Johnson, bred and co-owned by Linda Porter, earned her AKC herding championship October 26, 2019. She is AKC Herding Champion Beardie # 21.

The journey to Spring's Herding Championship started at eight weeks of age with a trip to Julie Degen's farm to see if she showed any instinct. Julie took her in with the ducks and Spring was immediately interested in trying to gather the ducks up. After a few minutes with the ducks Julie said to take her home and let her grow mentally and physically. I had decided I wanted to Julie to work with her and handle her to begin with. The first, and hardest lesson, was getting a good stop on her. We still work on that now!

Spring's first trial was in the HT ring at the 2016 specialty at Joanne Williamson's place on goats. Joanne saw her and said that with that much drive and desire I should let Julie continue handling her. I followed Joanne's advice and it worked out well to say the least! Their first effort at the Started A course was at the 2017 specialty where they went HIT both days! Spring has titles on sheep and ducks on the A, B and D courses. She finished her advanced title in May of 2019 and finished her HC in October of 2019. She accumulated 5 major wins on both ducks and sheep and at 3 different locations.

We do most of our trialing in Birdsboro, Pa which is 3 ½ hours from home. It's a wonderful farm with great stock. We do 5 weekends there a year. We also have a trial only an hour from home where we go too during the summer. I'm lucky that Julie is only about 50 minutes from me as we are there for lessons once a week depending on the weather and Julie's travel schedule.

Julie believes in working the dogs on skills (like good stops!) and farm chores not just course work. Doing farm work is really

Spring's favorite thing to do. She was so happy spending a couple hours helping Julie work 73 sheep this past spring! I really think she'd love to live on a farm and work.

Terry Johnson

HEALTH COMMITTEE REPORT

Debby Furlow & Andrea Hobe

We are so pleased with the amount of participation with the Embark Diversity Study. At this time there are approximately 180 dogs which have completed the testing. This far surpasses our initial goal of 100 dogs by August 1, 2020.

Following are questions that have been submitted and answered by Embark:

Apologies for the delayed reply - I had some confusion sorting out the questions but it appears there were the same questions asked by different parties (Elsa Sell also inquired). In any case, I know some of these have been responded too, so apologies for any redundancy, but want to ensure you have all the answers.

Per the sales status report - 18 remain from the recent 50 subsidized tests (32 sold). I cannot see, however, which transactions were foreign. This would require our accounting service to get involved and as they are involved with audits, I may not be able to provide you with that information by next week.

Per the questions below, tried to address each one, hope this helps and please let me know if additional questions.

1. Which of the multiple tests for prcdPRA is the one that has been positive (per Optigen) in Bearded Collies that have had

the clinical diagnosis of prcd PRA? This is relevant to our breed because, though PRA is a very low frequency problem, it exists, and our breeders should know exactly which test results to look at.

There's only one PRA-prcd test as described in Zangerl et al 2006 (<http://www.ncbi.nlm.nih.gov/pubmed/16938425>). There are multiple PRAs. There is one prcd subtype.

2. What is the public URL for accessing the Bearded Collies whose owners have given permission for public disclosure? If none is yet established, it is needed for study.

The ability to "share" a single dog's file is not the same as all public data being in a central location for access. This needs to be clarified again, that we have mentioned to several club members, but seems to be a point of confusion, Embark does NOT currently have a page dedicated to posting Beardie profiles. We do have a "Breed Description" page - that, by default, cycles through some shared profiles, but it is just a small number displayed at a time (up to 12, I believe) and as you've noted - is not a full profile display. This is the URL: https://my.embarkvet.com/breeds/bearded_collie. If you could let others know - this would be helpful. What most clubs have done is created their own page to have members post the results of their dogs.

We hope to have this feature in the future, but I am not able to provide you with a timeline as there are other features taking higher priority, such as the predictive match making tool.

3. What component of testing is used to designate the % breed of a dog? If dog is not 100% Bearded, then how has Embark determined the other breeds? Here, we need more information - can you provide EM or Swab code information so we can look up specific dogs.

Are you expecting them to be 100% Bearded? We can certainly investigate further if we understand your expectations.

4. How is the chromosome inbreeding map used to determine the genetic COI? Is it a % of areas that are inbred across all chromosomes or are there specific markers on one or more chromosomes? Or something else? I ask because info so far shows that some dogs' 40 generation pedigree COI are very close to the genetic COI; in others the genetic COI is quite a bit higher.

Yes, genetic COI is the proportion of the genome that is inbred (% of the areas in the inbreeding map). Our COI method is also published with free access at: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6325901/>

5. What are the values for the DRB1, DQA1, and DQB2 DLA's that are used to define diversity as inherited from sire and dam? Will owners be able to have access to that information? It seems essential to know when planning a prospective mating because if one is striving for low diversity you must have the raw data.

We are working to refine this information, and before we include these data in that manner, we always like to ensure we can replicate published results and ideally be able to report in a standardized fashion. We have been working with several clubs that are forwarding their VGL DLA reports with this aim. If your club would like to do this - we are happy to receive and include these reports in our ongoing efforts. In the meantime - we also direct you to an online blog that discusses the merits of genome wide diversity assessments. <https://embarkvet.com/resources/dog-genetics/dog-breeding-why-genome-diversity-matters/>

6. If a dog's profile is set to display all testing components on the 'my dogs' page, why is the genetic diversity information absent from the "share" file that can be downloaded or sent as a link? It

appears that public disclosure is defined differently for the 'my dogs' page and for "shared file". Why?

This appears to be an error and we have submitted a request to have this corrected. Thank you bringing this to our attention.

7. When is the first quarter's anonymous report to be available?

Yours should be available in Jan, we generally wait until the next cycle post signing on to ensure an informative number of dogs.

8. Can "coupons" received in the mail for discounted Embark tests, be used for our testing? If not, I don't see why Embark is wasting their money printing and mailing these glossy coupons to people who cannot use them.

Do you have an example/cell phone photo? It is important to know that there are two products from Embark -one for mixed breed detection for pet owners and the other is for breeders/purebred owners.

There was one promotion sent out that was an offer for first time users of the Embark for Breeders DNA test - but was limited to a one-time use. If you received the pet product version mailer, it would be helpful to know so we can inform our team that they need to better screen recipients.

Andrea and I believe that the BCCA needs to set up an informational base. We have requested information from the Doberman Club as to the procedures they followed to implement their data analysis and reporting process. We want to make sure we are informed. After we receive our first report, we will request volunteers to form a committee to begin discussions. We should take time and do it in a way that will be successful and beneficial for everyone. Maybe it's on the BCCA page? Maybe it's its own entity? Maybe it ends up being part of the existing Beacon database? There are a lot of things to be discussed. We are pleased that everything is happening months before we thought it would.

We are also working to set up a Health Seminar at the Specialty hopefully with someone from Embark.

Debby & Andrea
November 25, 2019

[Note - the third-quarter Embark report starts on page 12.]

AMERICAN KENNEL CLUB AKC PERFORMANCE EVENTS SCHOLARSHIP ANNOUNCEMENT

The AKC Performance Events Department is excited to announce a new AKC Performance Events Scholarship Program. The Performance Events Scholarship Program is meant to assist those young people who have demonstrated an interest in AKC Performance sports and who seek to achieve higher education whether it be through vocational school or a two- or four-year college.

AKC is now accepting applications for the Performance Events Scholarship Program for those students who will be attending school for the 2020-2021 academic year. The deadline to apply for the AKC Performance Events Scholarship Program is: Friday, March 6, 2020.

To learn more about this new AKC Performance Scholarship Program and how to apply please visit www.akc.org/performance-scholarship.

For comments or questions, please send your email to juniors@akc.org.

2020 BCCA NATIONAL UPDATES

Welcome to the 2020 BCCA National Specialty essentials, an update to information on the Specialty website, located at bcca2020.com

To access the website menu, click on the “hamburger” icon (the rectangular image in the upper left-hand corner of the header) and the 2020 Specialty flyout menu opens to you!

Note the dates-THURSDAY, October 1, 2020 for BOB-not the usual Friday.

To make a hotel reservation at the Wildwood Hotel you must call them; you will not get the BCCA special pricing by booking online. Our block is almost sold out with no wiggle room to add rooms, so book NOW! If you need help in locating a hotel or have questions, please write to me, Carol Sirrinc, at cas4beardies@earthlink.net

The RV form is currently being modified to reflect the new rules and regulations just sent to us by Purina Farms. It should be back on the website by mid-January.

Our Sweeps and Conformation judges are from the international community; both are pioneer breeders and have been instrumental in starting a national Bearded Collie club in their respective countries of Canada and Scotland.

BCCA Instinct Testing and Farm Dog trials will be held at Purina on Monday, September 28 that will accommodate agility

participants’ schedules and others who want to participate. Information coming soon.

Entertainment abounds at this National Specialty from the Welcome Party to the revival of “Broadway Beardies” for the Auction Night to a special education session on our foundation stock.

Textiles galore, another signature piece for this Specialty, will be featured over the months leading up to the Specialty. Shop now for specially designed winter wear, tea towels, and more for sale in the Fundraising section of the website.

In Spring watch for products made from our own BCCA tartan which is registered and woven in Scotland. And, you will not want to miss an amazing light-weight fleece throw with all color National Specialty logos Chet Jezierski has created.

Our logowear will feature both special order items and some basic items available online and at the Specialty for purchase.

In closing, I would like to thank all the committee chairs who are a dream to work with and who have such creativity coupled with organizational skills. Our goal is that everyone feels they have received value for money spent and that they feel welcome and special.

Let’s start this new decade by celebrating together our remarkable breed. Here is to a Guid New Year!

Carol Sirrinc, Show Chair
BCCA 2020 National Specialty Chair

Dear Board of Directors,

Thank you for being our partner and supporting Embark's canine research initiatives. I am pleased to provide you with the Bearded Collie Q3 2019 breed genetic status report. This summary reflects data from January 1, 2018 date to October 8, 2019, made possible by the increasing number of Bearded Collie dogs in Embark's database whose owners have agreed to participate in this research.

We believe the data provided are one step in the journey of our commitment to the long-term health of your breed through the science of genetic analyses.

If you have any questions or wish to discuss the report in more detail, we are available to speak with you or members of your breed organization at your convenience.

Sincerely,

Adam Boyko
Founder & Chief Science Officer

Q3 GENETIC ANALYSIS REPORT

Bearded Collie Club of America

This summary reflects from January 1st, 2018 - November 20th, 2019.

Total number of Bearded Collie dogs genotyped by Embark as of this Q3 report: **168**

ABOUT EMBARK

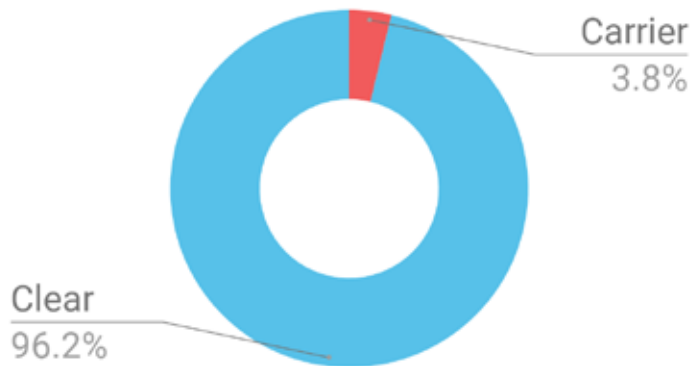

Embark Veterinary offers the industry-leading canine DNA testing service. With just one cheek swab, Embark provides the most actionable health, trait, and diversity information available, while simultaneously producing the data to power future health advances. By testing your dog for over 200,000 markers genome-wide, Embark uniquely combines health screening with scientific research in one single step. With your help, Embark has unprecedented potential to make genetic discoveries for your breed, and advance our mission of ending preventable disease in dogs.

RESEARCH METHODOLOGY

Embark employs a custom high-density marker panel to collect genetic information at over 200,000 sites across the canine genome. A subset of these markers to assess whether individuals are "Carriers" or "At-Risk" for over 170 different health risk variants.

GENETIC HEALTH REPORT | OFA registerable genetic tested condition

Collie Eye Anomaly, Choroidal Hypoplasia (NHEJ1)

Degenerative Myelopathy (SOD1A)

100% of Embark-tested Bearded Collie dogs are clear of this condition.

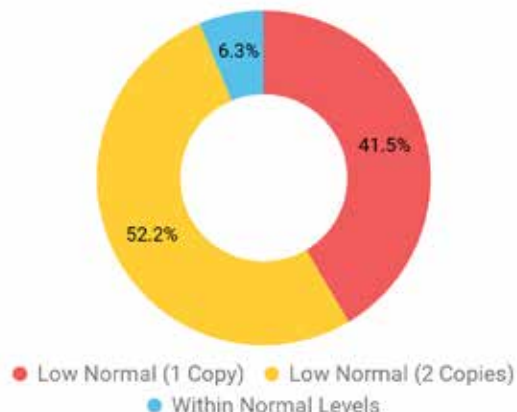

GENETIC HEALTH REPORT | Conditions not validated for this breed

No carrier or at-risk dogs reported.

Alanine Aminotransferase

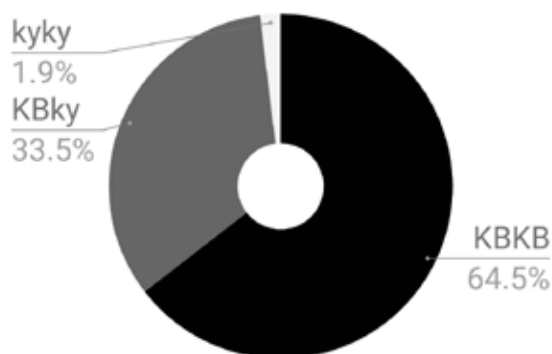

Because this mutation is inherited in a codominant manner, both heterozygotes (one copy of the mutation) and homozygotes (two copies of the mutation) can be clinically affected by this mutation.

While this mutation does not have any effects on liver function or health (for which ALT is a commonly used biomarker), it does tend to cause dogs to have a lower resting ALT activity: As such, dogs with this mutation may need to have their “normal” reference range adjusted accordingly.

GENETIC TRAITS REPORT | Coat Color

K Locus - Dominant Black

E Locus - Mask/Grizzle/Red

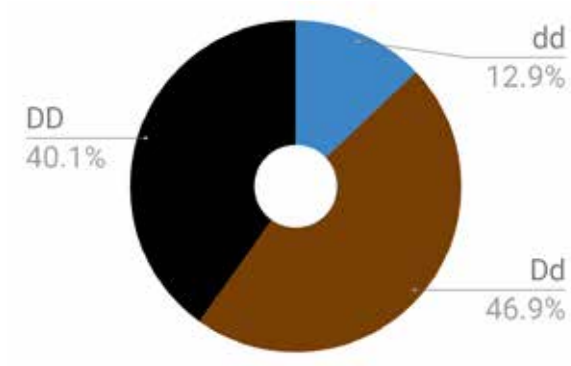

A Locus - Agouti/Sable

B Locus - Brown/Chocolate/Liver/Red

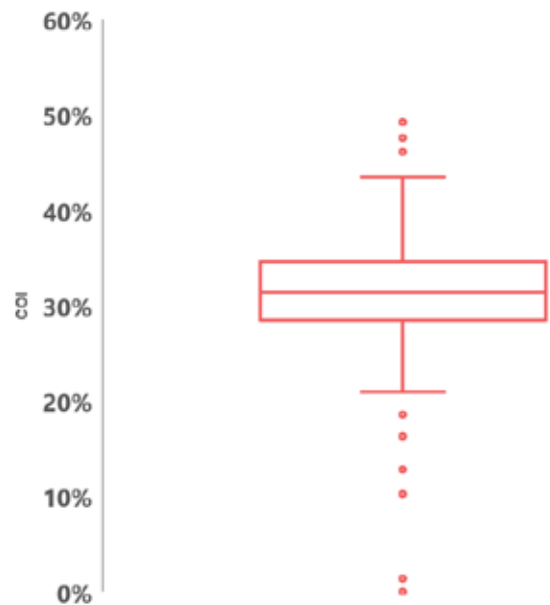

D Locus - Dilute/Blue/Fawn

COI STATISTICS

This chart shows the average COI (Coefficient of Inbreeding) across all Bearded Collie dogs tested by Embark.

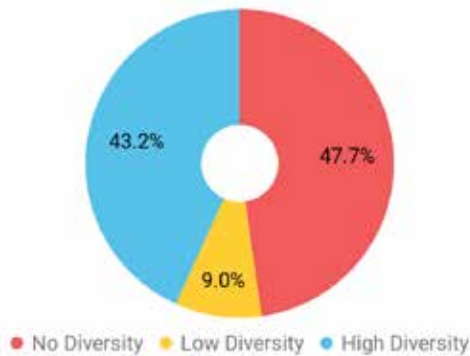

Minimum: 0%
 Median: 31%
 Mean: 31%
 Max: 49%

DLA DIVERSITY

The Dog Leukocyte Antigen genes, or DLA genes, are the canine homologue to the human Major Histocompatibility Complex (MHC) genes. While DLA haplotype frequency has been linked to increased risk for certain autoimmune diseases in some studies, most have not been validated in other sample populations. As such, the significance of zero, low, or high DLA diversity in any given breed remains open to speculation.

MHC Class II - DLA DRB1
CHROMOSOME 12

MHC Class II - DLA DQA1 and DQB1
CHROMOSOME 12
