Match and Show Reports

New England Bearded Collie Club, April 27, 1975

It felt more like winter than impending spring when the New England Bearded Collie Club held its Spring match in West Hartford, Connecticut, at Fern Ridge Park. Diane Weiss, Penny Taylor, and myself wish to thank all of those who came either as entrants or spectators for having the stamina to brave the weather and make our match a success. We also wish to thank Tom Davies, for bringing the ring equipment and many other things, Ian Morrison for his excellent job as our steward, and to everybody who contributed. The New England Spring Match was judged by Ms. Alyce Seekins of Middletown, New York, an A.K.C. licensed judge. The following is her critique on the match:

"Since the breed is really quite literally establishing its pattern for the future, I was a little concerned to see a great number of "english Sheepdog" type present. They are extremely attractive, but the danger is great to get even a little tendency towards this as when the breed is recognized and becomes more well known, breeding programs become less disciplined.

In connection with that type, I felt that the length of Back and in many cases the gaitting was not good.

Now, to the positive side. Certainly there were enough really representative dogs....not over done, yet well furnished in the line of coat. Some gaited beautifully and I was delighted with the dispositions. On the whole, they showed the animation of eye and face which is an integral part of the breed.

The overall quality of the bitches seemed a little better to me than dogs.

I would feel that there was evidence of enough serious and intelligent breeders and exhibitors to keep the delightful Bearded Collie on its successful course.

Every good wish to the breed and its fanciers...and will be looking forward to seeing more of the fine breed.

Alyce Seekins"

TOWSER

Dear Editor,

As you can see by my address, I live in Australia, a long way from the American Beardie scene, but I enjoy very much receiving your "Bulletins" which keep me well informed.

I only recently returned from an overseas trip to America and England, and during my stay in the States, although mainly with non-doggy people, I did meet the Nootbaars while I was in Chicago. My thanks go to them for a very interesting day spent looking at many photos of the American and Canadian Beardies and lengthy

talks on the blood lines you have in the U.S.A.

My stay in England centered around the Dog World and of course "Crufts Dog Show" and the Bearded Collies there. It was such a thrill to watch them being judged as the most we see in the show ring here is only four or five.

Our stock, of course, comes direct from England, as the Beardie was unknown here until three years ago when our first imports arrived. Now we have over twelve imported Beardies with more on the way, and also four registered Australian litters, some of which are now in the show ring.

The Bearded Collie is growing in popularity here and we may have our own club in the near future.

Yours sincerely,
Janice Cook

Dear Editor,

A bit of news for the Bulletin - The Chicagoland Bearded Collie Club is having their Third Annual Specialty Match on June 15th. Miss Lynne Evans, of Brambledale Beardies, will be here to judge the event. This is one of the few chances we get to show under a judge who is truly knowledgeable about the breed, and we encourage Beardie owners to take advantage of this. For information, contact Mrs. J. Carty, Match Chairman, 538 W. 127th St., Chicago, IL 60628 or Phone 785-1591 or Miss Sue Stell, Match Secretary, 104 W. Palatine, Arlington hts., IL 60004, Phone 394-1177 (Area codes 312).

Sincerely,
Linda Nootbaar

Peti-Points by Joyce O'Kelley

Having a difficult time getting those heartworm pills down your dog each evening? For some people it is easy to open Rover's mouth and pop those pills right down the old hatch - for others, well...suffice it to say, at pill time we're certainly glad no member of the clergy is in earshot!

Well, believe it or not, it doesn't have to be a nightly battle. Now, you may have tried hiding the pill in food, and found to your surprise that Fido is a pretty smart dog, when he pushed the pill to a corner of his jaw, spit it out and swalled the hot dog or whatever, with a big toothy grin. The problem with putting the pill in food is that after one bite, the dog feels the pill, and of course "spits" it out. The secret lies in selecting a VERY soft food that Fido quickly learns is delicious and soft enough to just swallow down. The ideal food is a product called Braunschweiger (a type of liverwurst, or liver sausage) that comes in a tubular package at all grocery stores. First give the pooch a few bites to show him how delicious it is and how soft. Then take the heartworm pill, a spoonful of the Braunschweiger, and enclose the pill (like a chocolate covered cherry) and offer it to your pet. Chances are he will immediately swallow it right down. In our household, our three dogs can hardly wait for their "treat".

Companion Dog Excellent — C.D.X.

In the last issue you were introduced to The obedience titles. This issue we will go on with the description of the Open class where a dog can earn the C.D.X. title. The Open exercises are Heel Free, Drop on Recall, Retrieve on the Flat, Retrieve Over the High Jump, and Long Sit and Down.

When the dog and handler enter the ring, the leash is given to the steward. The Open work is entirely off-leash. Petting and praising is allowed between exercises, however, there can be no other physical guidance or handling of the dog while in the ring.

The dog must be measured to determine the height of the jumps, so the handler stands his dog for measurement. The judge measures the shoulder height and instructs the stewards to set the jumps. Beardies will jump $1\frac{1}{2}$ times their shoulder height, not to exceed 36 inches (maximum for all breeds). Some of the heavy bodied and/or short legged breeds only jump once their shoulder height, such as Great Danes, Basset Hounds and Pekingese. The length of the Broad Jump is twice the Height of the High Jump.

Heel Free — It is off-leash heeling, similar to the Novice class and includes a Figure 8.

Drop on Recall — This is similar to the Novice recall except that when the dog is moving to the handler, the judge will indicate when he wants the dog dropped to a down position. The handler can signal or tell the dog to drop and it must do so immediately. The dog must remain down until the judge tells the handler to call him again.

Retrieve on the Flat — The dog retrieves a wooden dumbbell in this exercise. Upon orders from the judge, the handler throws the dumbbell across the ring and then sends his dog after it. The dog should go to it briskly, pick it up and return and sit in front of his handler. The handler takes the dumbbell from the dog and sends the dog back to heel position. Returning to heel position is called "the finish".

Retrieve Over the High Jump — Again upon orders from the judge, the handler lines up with his dog in front of the jump. The dumbbell is thrown over the jump and the dog is sent after it. The dog must go over the jump, retrieve the dumbbell, and bring it back over the jump to his handler. The handler takes the dumbbell and directs the dog to "finish".

Broad Jump — The broad jump consists of 4 hurdles about 8 inches wide and 5 feet long. They are about 6 inches high at the highest point. The hurdles are arranged evenly on the ground. The handler leaves his dog on a sit-stay 8 feet or more behind the first hurdle and walks to a position on the right side of the jump. His toes are about 2 feet from the jump. The handler commands or signals the dog to jump. While the dog is in mid-air, the handler makes a right angle turn to face the dog, which comes and sits in front of the handler. The dog "finishes" on command.

Long Sit and Down - These are similar to Novice except that the handlers leave the ring and go out of sight. The sit is for 3 minutes and the down is 5.

When a dog has qualified 3 times it receives its C.D.X. title, and it may continue to compete in the Open B class.

****BEARDIE GOES HIGH IN TRIAL****

Another First in Obedience

According to the April A.K.C. Gazette, "Phils Whisky Doodle Dandy", owned by T. Stinson went High in Trial at the Louisville K.C. trial on February 23, 1975, with a score of 199 of the possible 200 points, FANTASTIC! This same dog scored a nice 196½ in the Novice A class at the Muncie Obedience Training Club Trial on February 1st.

I predict...this is only the beginning of Beardies doing big things in the obedience ring. As we all know they are bright, alert, and quick to learn, all assets when combined with good training.

Our own Beardie bitch, Windcache Brillig O'Braemoor has completed her C.D. title and has earned the Dog World Award in the process.

Training Tip for Summer

Trying to steady that young Beardie to stand for the breed ring, veterinary exam, showing off to friends, etc.? Here is a method which works. It consists of teaching a sit-stay, then conditioning the dog to many people approaching and petting him.

First of all, spend at least 2 weeks teaching the sit-stay. With your Beardie sitting at your left side (leash and collar on), say "stay", give a stay signal simultaneously (the flat of your hand in front of dog's face) and pivot in front of the dog, stand toe-to-toe for 4 days. Hold the leash straight up over your Beardie's head while you are close to him. In the beginning the Beardie should hold the stay for 4-5 seconds, gradually work up to 15-20 seconds, then on the 5th day you can begin to step away from the dog. If the dog breaks, immediately place him on the sit-stay again and go back where you were. At the end of the 7th day you should be out at the end of a 6 foot leash for 30 seconds (this is the assignment my trainees get when they begin the sit-stay).

In another week you can increase the time up to 2-3 minutes as long as your Beardie is holding. Always go back to your Beardie to release him off his stay with an "O.K., good dog" and lots of pats and PRAISE.

Now your Beardie should be ready for an approach by another person. So, back you go right in front of your Beardie. Now, if your Beardie simply cannot remain seated while someone approaches, pats his head and leaves you must be firm about correcting his sit-stay. (He knows it, remember) Have your helper back off, replace your Beardie immediately and firmly, and try again. When your Beardie holds for the approach, keep it brief, then you return, release him and PRAISE.

When your Beardie holds for several people, then you can gradually back away as others approach. Obviously the more you do this the steadier your Beardie will become. Build him up gradually, by stroking the back, the head, the chest, legs, etc., as the Beardie gets more solid on the sit-stay.

In a week or two, put the Beardedie on the stand, tell to stay and you stroke your Beardedie all over, gradually circle around your dog while doing this. In another week have others approach and pat your dog. You can see what a slow and solid foundation of steadiness you have built into your dog. Your Beardedie has been successful and has learned. Best of all, his feet will stay still but his tail will keep a-wagging. Remember - as the trainer you must remain calm, the wiggler the Beardedie, the calmer you must be. Any corrections must be quick and firm, but keep your emotions out of it. Praise should be immediate and sincere.

Until next time....

Braemoor

All the "Beasties" here at Braemoor have been busy working away at their things -- Cannamoore Honey Rose, C.D., T.D., is back at work on her jumping and retrieving, having given her puppies a good start and is looking forward to trying for her C.D.X. in the Fall

Baffler O'Braemoor, our promising young fellow and sire of Honey's litter, is starting to come out to the shows now and is making his presence felt

Jedriana Nantua (Baffler's mom) is knitting and purling for her June babies sired by Brambledale Benedict. This will be another line breeding on Ch. Bravo of Bothkennar

Magic, Bobo and Boojum are still heeling and tracking and the newest member of the clan, Bit O'Honey O'Braemoor, wows everyone with her cuteness — two of her handsome black and white brothers are still looking for families to love and show them
